Key Company Performance Measures

Revealing underlying company performance

Key SaaS Metrics

For FY22 1st Group will report on the key SaaS Metrics that:

- best reveal the underlying performance of the Company
- reflect the drivers of growing recurring revenue – which drives value
- provide the most reliable indicators for future performance

OVERVIEW	Q1FY21	Q4FY21	Q1FY22
ARR	\$5.69m	\$5.93m	\$5.40m
ACR	5%	4%	5%
LTV/CAC ratio	8.7	11.9	7.7

The following recognised SaaS metrics are most relevant performance metrics for the company:

- ✓ **ARR (Annual Recurring Revenue)** confirms minimum expected annual revenue at a moment in time prior to new future sales. ARR is the value of all recurring monthly revenues at the end the quarter normalised to a one-year period. ARR includes all revenue streams that are reliably recurring on a monthly basis.
- ✓ **ACR (Annualised Churn Rate)** reveals annual revenue churn of cancelled customer contracts. Global SaaS standards regard a churn rate less than 5% as excellence in customer retention.
- ✓ **LTV/CAC Ratio (Lifetime Value / Customer Acquisition Costs)** provides insights into the efficiency of the investments in sales and marketing for growth. Global excellence is in the range of 3-5. Less than 3 is an indicator that a company is getting a poor return on investments for growth and greater than 5 is an indicator that the company could be investing more in sales and marketing for growth but also highlights excellent returns on those investments.

Performance measures including Site Count, Portfolio Lifetime Value (LTV), LTV per Site and Customer Acquisition Cost (CAC) per site are intended to be reported on an annual basis.

Revenue Analysis

High quality recurring revenue sources underpinned revenue growth FY17 to FY21

* Note: ARR is the value of all recurring monthly revenues at the end the period normalised to a forward looking one-year period. ARR includes all revenue streams that are reliably recurring on a monthly basis.

FY22 Roadmap & Outlook

3 Strategic Pillars for Growth: channel partnerships, digital strategy and product development

Partnerships

- Allied and Specialist Healthcare growth through strong strategic channel partnerships
 - Private Hospital Partners > Cabrini, St Vincent’s, St John of God
 - BNPL Partners > OpenPay, AfterPay and LatitudePay
- Partners promote 1st to their healthcare networks enabling low-cost expansion of the customer base of 1st Group

Digital Strategy

- New MyHealth1st.com.au marketplace for better performance and website traffic
 - Launched in September 2021 delivering the best online experience available in the market for patients and referrers looking for healthcare services
 - Increased website traffic will benefit our customers with more new patient appointments and new advertising opportunities – driving revenue for 1st Group

Product Development

- Strengthen and mature the company’s product roadmap
 - Focus on efficient product development resulting in better success of new product launches

Each of these strategic pillars are now maturing and expected to deliver accelerated growth

Growth is further supported by a strong pipeline of additional major opportunities in each area

1st Group is approaching breakeven, reflecting continued cost reduction and revenue growth in FY22
