## **Oneview Healthcare Announces Enterprise Expansion at BJC Health System**

**Sydney, Australia – 23 May 2022.** Oneview Healthcare Plc (ASX:ONE) (“Oneview”) and BJC Health System (“BJC”) have today signed an agreement to deploy the Oneview platform group wide at BJC adding 2,441 additional beds to the existing program and extending the Oneview and BJC partnership for a further 6 years. This expansion is significant to Oneview as it represents a 20% increase in contracted beds for Oneview, contracted beds now being 14,283.

Under this agreement, BJC will also be migrating to Oneview’s CXP Cloud Enterprise platform and moving all existing deployments to Android hardware.

BJC and Oneview have enjoyed a successful partnership since 2016, with the Oneview solution currently live in approximately 950 beds across three hospitals. This new agreement provides for the deployment of the Oneview platform at a further ten BJC hospitals over the coming years.

In Q4 2021, Oneview and BJC conducted a series of collaborative workshops with key stakeholders to assess the impact of the pandemic on inpatient care and to determine how bedside technology could support care model innovation. The outcome of these workshops is a new strategy which will bring the Oneview platform to nearly every inpatient bed at all BJC hospitals.

James Fitter, CEO of Oneview commented: “The pandemic has raised the importance of bedside technology for enabling self-service, keeping patients, families and clinicians connected, and supporting hybrid care models. BJC Health System has a clear and innovative vision for how technology can support inpatient care into the future with the “Connected Patient Room”. We’re proud to expand our partnership and to help them deliver on this vision.”

There are no material conditions that need to be satisfied before BJC becomes legally bound to proceed under the agreement.
