30 April 2021

Receipt of R&D Tax Incentive Rebate – Overseas Finding Application for Acrux Commercial Pty Ltd

Melbourne, Australia; 30 April 2021: Acrux Limited (ASX:ACR, “Acrux” or the “Company”) is pleased to announce that the Company’s 100% owned investee companies Acrux Commercial Pty Ltd and Acrux Pharma Pty Ltd have received approval from AusIndustry for an Advance and Overseas Finding application.

The finding covers financial years 2018/19, 2019/20 and 2020/21 and means that eligible overseas research and development expenditure, in addition to Australian expenditure, will be subject to a 43.5% cash rebate under the Australian Federal Government’s R&D Tax Incentive Program. The eligible expenditure was incurred during overseas development and clinical trial activities.

Today Acrux Commercial has received \$406,209 for the 2018/19 and 2019/20 financial years. Acrux Pharma expects to receive a rebate for the same period in the current quarter.

A further rebate for the 2020/21 financial year is expected to be received for both investee companies in financial year 2021/22. The funds will be reinvested into the further development and commercialisation of the Company’s current and future pipeline of topical generics.

These amounts are in addition to the R&D Tax Incentive Rebate received in October 2020.

Acrux Limited would like to thank the Department of Industry, Science, Energy and Resources and the Australian Government for the implementation of this program.

Authorised by the Board of Acrux Limited.
