

Millennium Services Group Limited
(ASX: MIL)

28 February 2022

The Board of Millennium has announced today that Mr. Scott Alomes, CEO Millennium, has tendered his resignation and will be leaving Millennium at the end of March.

Mr. Alomes was recruited almost 12 months ago to lead the continued stabilisation of the business, develop a fully integrated strategy based on compliance, good governance, growth and cost containment, ensure various projects were delivered, initiate necessary policy and procedural infrastructure especially in compliance, update and refine a variety of operational procedures and undertake a critical cost review. These, amongst other matters, have been achieved and Mr Alomes is keen to move onto his next challenge.

Mr. Royce Galea will be the interim CEO and Managing Director. Having been one of the Founders of the business he is very familiar with the customers, staff and strategy and will continue to drive the business forward on the platform already established.
