

Quarterly Report

June 2021

30 July 2021

SUMMARY

Corporate

- **Administrators Appointed:** On 16 July 2021, Heron's Board of Directors appointed Chris Hill, David McGrath and Mike Ryan of FTI Consulting as voluntary administrators of the Company and its subsidiaries.

The appointments follow a resolution by the Company's directors that the Company has been unable to secure a suitable transaction through the Strategic Process announced in August 2020. The Company continues to operate and the appointment of administrators has been made with a view to effecting a restructure and re-capitalisation through the administration process.

The first meeting of creditors under voluntary administration was held on 27 July 2021.

Woodlawn Zinc-Copper-Lead Project

- The Woodlawn Mine site remains on Care & Maintenance (C&M) following the suspension of operations on 24 March 2020, with activities focused on preserving mining and processing infrastructure for future re-start, along with environmental management of the site.

Exploration Projects

- Near mine exploration at Woodlawn remains suspended during C&M and under voluntary administration.
- Sky Metals Ltd (ASX:SKY) announced further gold and base metal mineralisation assay results from drill holes HUD023 – HUD025 at the Hume Target as part of the Cullarin (EL 7954) Joint Venture Project (Heron 20% free carried to DFS or \$10 million expenditure).

Heron Resources Limited
(Administrators Appointed)

Quarterly Report

June 2021

Heron Resources Ltd (Administrators Appointed) (“Heron” or the “Company”) provides its report for the June 2021 quarter.

WOODLAWN ZINC-COPPER PROJECT

Heron holds a direct 100% ownership of the mineral rights at the Woodlawn Mine site situated 40km south of Goulburn and 250km south-west of Sydney, in southern NSW, Australia.

Heron has developed the Woodlawn Zinc-Copper Project through planning, construction, commissioning and ramp up through to commercial production. Construction was completed in 2019 and the first lead and zinc concentrates were produced and shipped in September and October 2019.

On 24 March 2020, operations were suspended at Woodlawn due to travel and other restrictions imposed by Australian Federal and State Governments in response to the COVID-19 pandemic, and also to safeguard the financial position of the Company. The majority of employees and all contractors were demobilised and the site has remained in C&M since that time. All mine and process plant infrastructure assets are being maintained to a level that will support a re-start of operations. Regulatory compliance is being maintained along with stringent security, health, safety and environmental protection protocols.

Operations

Operational activities under C&M during the June 2021 quarter:

- **Health & Safety:** No injuries or significant incidents occurred.
- **Environment:** An alternative capping trial for long term rehabilitation of the tailings storage facilities in conjunction with Veolia continued throughout the quarter with construction of the trial cells on tailings dam north (TDN).
- **Underground Mine:** There was no underground mine development or production during the quarter. Routine inspections, dewatering and ventilation to the base of the current mine development continued throughout the quarter. The mine remains in good condition, ready for a restart of operations.
- **Tailings Reclaim:** No tailings were reclaimed. Water levels on the historic and new tailings storage facilities are being managed in accordance with good geotechnical practice.
- **Process Plant:** There was no process plant production during the quarter. All plant facilities are being routinely inspected and maintained in accordance with a C&M program designed to ensure all plant is kept in a state of readiness for a restart of operations.
- **Optimisation studies and key work programs:** A number of technical investigations and engineering programs continued or were completed during the quarter. These studies and programs were undertaken to identify value-adding opportunities and are aimed at addressing technical issues that were identified during Woodlawn’s operational phase.

Exploration

- **Woodlawn Near-Mine Targets:** Heron’s exploration focus is discovery and delineation of additional mineralised Volcanogenic Massive Sulfide (VMS) lenses directly north of the Woodlawn orebody. Prospects targeted are within the NW-oriented “Woodlawn Corridor” of prospective stratigraphy and within a NW to NE trending 2.5 km arc from the mine

Heron Resources Limited (Administrators Appointed)

Quarterly Report

June 2021

(Figure 1). No near-mine exploration activities were undertaken during the quarter due to the project remaining in care & maintenance.

- **Woodlawn Regional Prospects:** Heron holds a strategic 1,372 km² tenement package covering the prospective Silurian volcanic rocks, similar to those which hosts the Woodlawn VMS base metal deposit. Heron's exploration focus is on historically known mineralisation zones with prospective geology, with the objective of locating comparable grades and metallurgy to that characterising Woodlawn, and within potential trucking distance of the Woodlawn mine and processing facility.

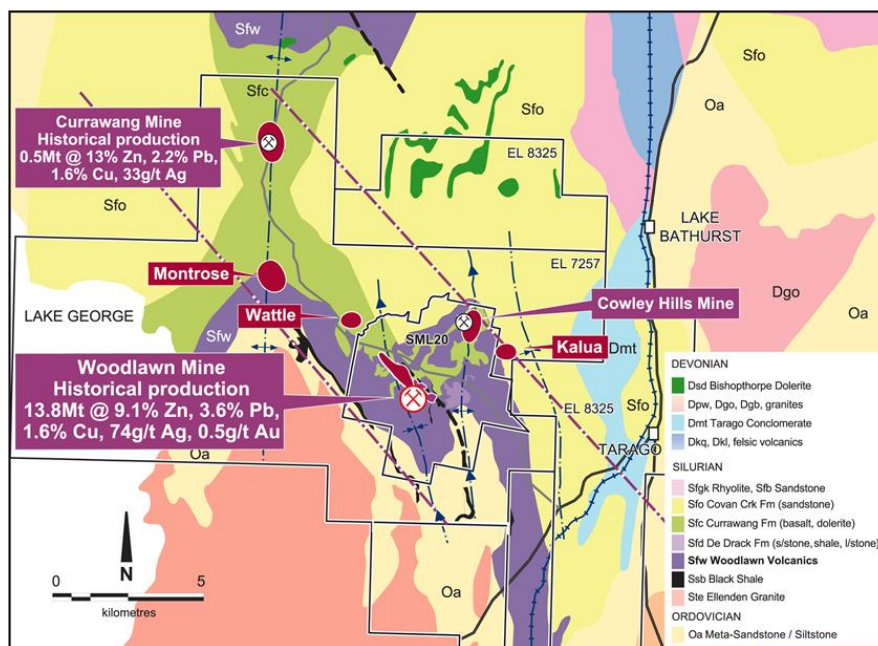

Figure 1: Woodlawn near-mine exploration prospects within NW striking Woodlawn Corridor.

Exploration Joint Ventures

Heron retains interests in tenements within the Lachlan Fold Belt of NSW and the Eastern Goldfields of WA. These tenures are held through farm-in and joint venture interests, which include a number of other free-carried residual or royalty interests with minimal cost to Heron.

Sky Metals Farm-In and Joint Venture Agreement

In 2019 Heron entered into a farm-in agreement with Sky Metals Ltd (ASX:SKY) for three tenements at Cullarin (EL 7954) and Kangiara (EL 8400, EL 8573), targeting McPhillamy's style gold mineralisation (Figure 2). On 4 August 2020, Sky announced that it had reached total expenditure of \$2 million thereby earning its 80% interest in the tenements. Heron's 20% interest is free-carried to definitive feasibility study or \$10 M of expenditure.

Heron Resources Limited (Administrators Appointed)

Quarterly Report

June 2021

Sky have continued to report strong gold results from drilling at its Hume target on the Cullarin project with good results announced during the June quarter summarised below:

- HUD023: 9m @ 0.57g/t Au, 0.31% Cu, 4.55% Pb+Zn from 136m;
- HUD023: 4m @ 0.29g/t Au & 5.35% Pb+Zn from 193m; and
- HUD023: 6m @ 0.11g/t Au & 6.36% Pb+Zn from 209m.

HUD024 and HUD025 were drilled to test the north-west extension along the Hume structure and returned strong lead and zinc mineralisation with low level gold values.

- HUD024: 3m @ 4.65% Pb+Zn from 289m
- HUD025: 4m @ 0.12g/t Au, 0.11% Cu, 4.17% Pb+Zn from 61m, and; 3m @ 0.15% Cu & 4.77% Pb+Zn from 331m

Additional drilling during the quarter including HUD030 and HUD031 tested depth extensions to the high grade gold, lead, zinc and copper results returned from HUD005: 6m @ 1.28% Cu, 6.61% Zn, 5.83% Pb, 26g/t Ag & 0.09g/t Au from 273m (ASX: SKY 22 June 2020). Assay results from these holes are pending.

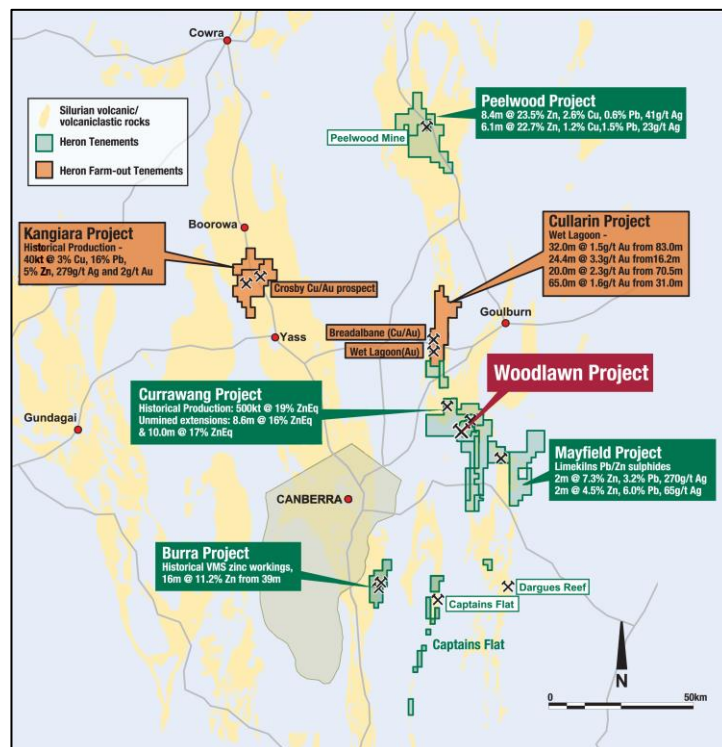

Figure 2: Heron NSW projects, including Kangiarra and Cullarin farmed out to Sky Metals Ltd.

Alchemy Farm-In and Joint Venture (Overflow, Girilambone, Eurow and Yellow Mountain)

Heron entered into a Farm-In Agreement with Alchemy Resources Limited (ASX:ALY) in May 2016. The Farm-In Agreement includes eight Exploration Licences comprising 674 sq2 in the central Lachlan Fold Belt in NSW (Figure 3). On 11 February 2021, Alchemy announced that it has earned an 80% interest in the tenements after spending \$2 million.

Heron Resources Limited (Administrators Appointed)

Quarterly Report

June 2021

Alchemy announced (ASX:ALY 9 June 2020) it had identified two significant Cu-Au porphyry exploration targets at the Melrose and Yellow Mountain mine prospects within EL 8356. The Melrose target is located within a major hydrothermal alteration system with geochemical signatures similar to large Cu-Au porphyry deposits (eg. Newcrest's Cadia). At Yellow Mountain, Alchemy has identified a strong IP anomaly using legacy data that to-date has not been drill tested. Alchemy intends to drill these IP anomalies.

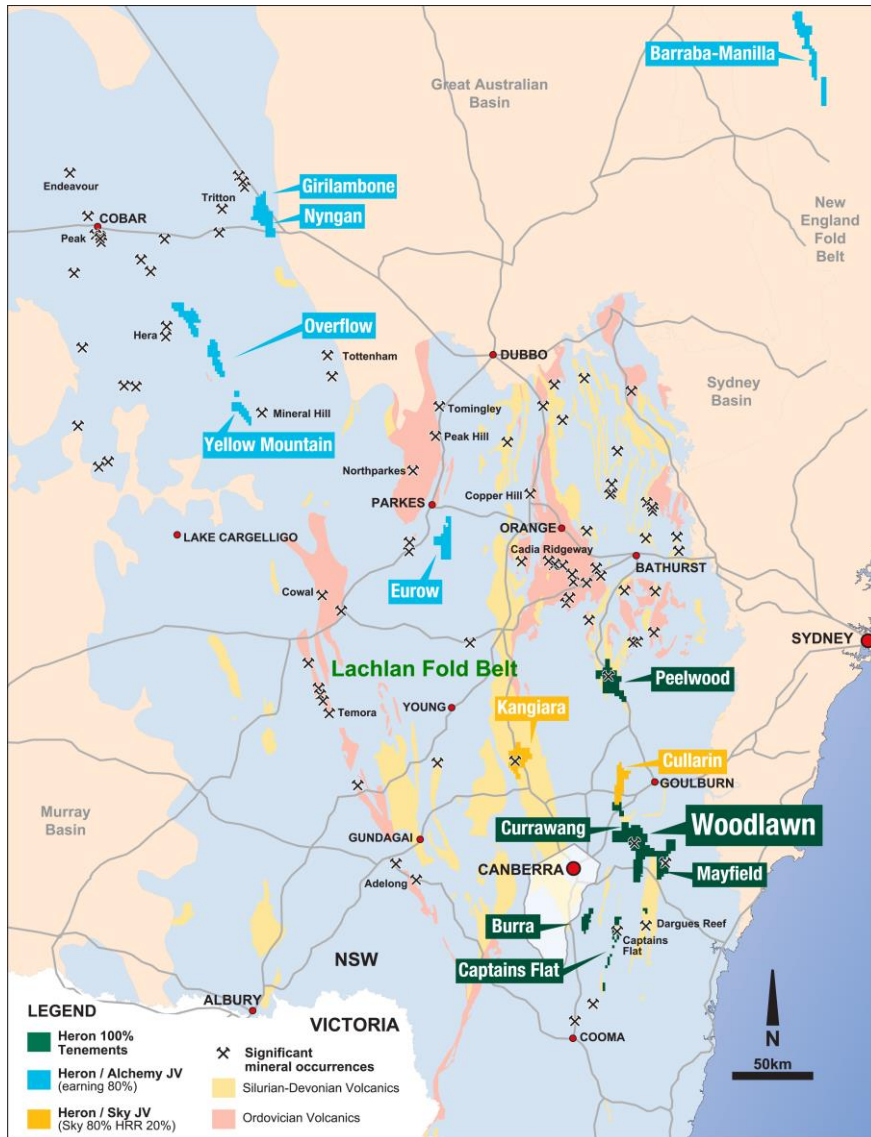

Figure 3: Heron NSW Projects (including Sky Metals & Alchemy JV projects).

Compliance Statements (JORC 2012)

The technical information in this report relating to the exploration results is based on information compiled or reviewed by Ms. Alexandra Bonner, who is a Member of the Australian Institute of Mining and Metallurgy. Ms. Bonner has sufficient experience, which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 edition of the "Australasian Code for Reporting of Exploration Results. Ms. Bonner has reviewed this report and approves the scientific and technical disclosure related to exploration results within.

June 2021

5.	Reconciliation of cash and cash equivalents at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts	Current quarter \$A'000	Previous quarter \$A'000
5.1	Bank balances	3,274	5,546
5.2	Call deposits		
5.3	Bank overdrafts		
5.4	Other (environmental bond)	3,701	3,701
5.5	Cash and cash equivalents at end of quarter (should equal item 4.6 above)	6,975	9,247

6.	Payments to related parties of the entity and their associates	Current quarter \$A'000
6.1	Aggregate amount of payments to related parties and their associates included in item 1	210
6.2	Aggregate amount of payments to related parties and their associates included in item 2	0

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

Payments include Directors' fees.

7.	Financing facilities <i>Note: the term "facility" includes all forms of financing arrangements available to the entity. Add notes as necessary for an understanding of the sources of finance available to the entity.</i>	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
7.1	Loan facilities	92,763	92,763
7.2	Credit standby arrangements		
7.3	Other (please specify)		
7.4	Total financing facilities	92,763	92,763

7.5 **Unused financing facilities available at quarter end** -

7.6 Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.

Senior debt loan facility from Orion Mine Finance is for USD \$50 million and fully drawn down. The funding rate is the aggregate of a margin of 7.25% and the applicable LIBOR rate, being a minimum of 2.5%, for each interest period.
 "Care and Maintenance" loan facility from funds managed by Castlake L.P is for AUD \$3.5 million and fully drawn down.
 The funding rate is the aggregate of a margin of 12.5% and the applicable BBSY Bid rate, being a minimum of 2.5%, for each interest period.

Quarterly Report

June 2021

8.	Estimated cash available for future operating activities	\$A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(2,273)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	-
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(2,273)
8.4	Cash and cash equivalents at quarter end (item 4.6)	3,274
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	3,274
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)	1.4
	<p><i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i></p> <p>N/A</p>	
8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
	<p>The Woodlawn mine and operations have transitioned to care and maintenance effective from 25 March 2020. The company was placed in voluntary administration on 16 July 2021.</p>	
8.8.2	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
	<p>The company was placed in voluntary administration on 16 July 2021.</p>	
8.8.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
	<p>The company was placed in voluntary administration on 16 July 2021.</p>	
	<p><i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i></p>

Notes

1. The Quarterly Report is to provide a basis for informing the market how the entity's activities have been financed for the past Quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
2. The "Nature of Interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
3. **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
4. The definitions in, and provisions of, *AASB 1022: Accounting for Extractive Industries* and *AASB 1026: Statement of Cash Flows* apply to this report.
5. **Accounting Standards** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
