

WA Kaolin Webinar

Webinar with Pulse Markets

WA Kaolin Ltd (“**WA Kaolin**” or the “**Company**”) (ASX:WAK) advises that it presented at an Investor Webinar with Pulse Markets on the 10th September at 2021.

The webinar presentation was by CEO Andrew Sorensen detailing the ongoing work program at the Company’s Wickepin Kaolin Project in Western Australia, which contains a 644.5 million tonne Mineral Resource, including an Ore Reserve Estimate of 30.5 million tonnes of kaolinised granite.

The Wickepin Project produces kaolin products for tier one customers and the Company aims to expand its production to 400,000tpa in a two-stage strategy.

ABOUT WA KAOLIN

WA Kaolin’s Wickepin Kaolin Project, 220km south-east of Perth, contains a Mineral Resource (JORC 2012) of 644.5 million tonnes^{1,2} of high-grade premium kaolinised granite. This world-class resource at Wickepin is one of the largest known remaining premium primary resources of kaolin globally. It is characterised by its purity, quality and brightness, producing kaolin products that typically attract higher prices from a growing collection of top tier customers. With more than \$42 million invested in the project prior to the IPO, WA Kaolin has developed a proprietary dry processing method, known as K99, to turn raw material into market suitable feedstock for global customers, and constructed a small-scale commercial processing plant on 3ha of portside industrial land at Kwinana, WA. The Company is focused on increasing production from Wickepin to 400,000 tonnes per annum by 2023 with further modular increases to capacity to be implemented in tune with market demand and funding capability.

¹ The Mineral Resource estimate is inclusive of Ore Reserves and the 2019 Mineral Resource estimate.
