

ASX Release

9 March 2022

Sam Cruickshank appointed as interim CFO

DUG Technology Ltd (**ASX:DUG**) ("**DUG**" or "**the Company**") is pleased to announce the appointment of Mr Sam Cruickshank as interim Chief Financial Officer ("**CFO**"), effective 9 March 2022.

Sam will succeed Mr Greg Haskis who resigned as CFO on 8 March 2022. The Company would like to thank Greg for his financial leadership during his time at DUG.

Mr Cruickshank is a strong finance professional with over 15 years of experience working in the industrials and financial services sectors with ASX-listed companies across Australia and the United Kingdom. Sam's most recent role was CFO at Austin Engineering Limited (**ASX:ANG**) with previous consulting and audit roles at Summit Financial Consulting, Moore Australia and BDO. Mr Cruickshank holds a Bachelor of Science from University of East Anglia, England, and is a Fellow Chartered Accountant.

DUG Managing Director Dr Matthew Lamont commented: "I am delighted we have been able to appoint an executive of Sam's calibre at short notice. Sam has a great reputation in the Australian market for his technical skills and diverse knowledge base. We look forward to working with Sam towards leveraging his experience for the long-term benefit of DUG. Sam is supported in this role by DUG's experienced finance team."

Authorised for release by the Board of DUG Technology Ltd.

About DUG

DUG is an ASX listed technology company, headquartered in Australia, that specialises in analytical software development and reliable, green, high-performance computing (HPC). The company is built on a strong foundation of applied science and a history of converting research into practical, real-world solutions. DUG delivers innovative software products and cost-effective, cloud-based HPC as a service backed by bespoke support for technology onboarding. DUG's expertise in algorithm development and code optimisation enables clients to leverage big data and solve complex problems.

DUG is a global company with offices in Perth, London, Houston and Kuala Lumpur, supporting a diverse industrial client-base that includes radio-astronomy, biomedicine and meteorology, as well as the resource, government and education sectors. DUG designs, owns, and operates a network of some of the largest and greenest supercomputers on Earth. The company continues to invest and innovate at the forefront of software and HPC, working towards a climate-positive future.
