
Quarterly Report for the quarter ending 31 March 2022

Red Mountain Mining Limited (the **Company**, **Red Mountain** or **RMX**) is pleased to provide the following report on its activities during the quarter ending 31 March 2022.

HIGHLIGHTS

- Assays from Solo Prospect drilling intercepts 5m @ 0.316% TREO with an average 66.62% HREO
- Petrology study confirms presence of Xenotime and Florencite at Mt Mansbridge
- Base Metal potential identified at Mt Mansbridge
- Acquisition of prospective tenure for Lithium, Nickel, Gold & Base Metals
- Successful completion of \$1.6 million capital raising

OPERATIONAL REVIEW

Mt Mansbridge Heavy Rare Earths and Ni-Co-PGE Project – 100%

On 6 January 2022, the Company provided an update on the encouraging assay results for its Heavy Rare Earth Element and Ni-Co-PGE prospects. Prioritised assay results from drilling undertaken at the Solo Prospect were received from the laboratory with Heavy Rare Earth Element enrichment confirmed from drilling at the Solo Prospect.

Further, on 17 January 2022, petrological analysis undertaken by Diamantina Laboratories confirmed the presence of Heavy Rare Earth mineral Xenotime and Florencite.

On 24 February 2022, field assessment identified hydrothermal breccias, indicative of a large intense fluid system proximal to the northern Killi-Killi-Pargee contact. Geochemical anomalies are associated with coincident magnetic anomalism which is also underlain by a regional WNW – ESE structure. Potential exists for a sediment-hosted base metal deposit within the sedimentary pile. This will be followed up during the 2022 field campaign.

Acquisition of Nannup Lithium, Nickel, Gold & Base Metals Project – 100%

On 21 February 2022, the Company entered into a binding heads of agreement to acquire 100% of the shares in Airdrie Exploration Pty Ltd for a consideration of \$50,000 in cash. Airdrie holds 100% of the Nannup Project, a granted exploration tenement south-west of Greenbushes lithium, Western Australia. The Project is prospective for lithium and located in the southwest terrane with potential to support a Julimar-style geological system.

An initial exploration program is being planned to further identify the lithium, nickel, gold and base metals potential which is expected to commence once land access agreements are granted.

Koonenberry Gold Project – 100%

The Koonenberry Gold Project covers approximately 657 km² and is located in a geologic setting considered analogous to the prolific Victorian Goldfields located in south-eastern Australia. The Koonenberry Gold Project adjoins Manhattan Corporation's (ASX:MHC) Tibooburra Gold Project where Manhattan has recently announced a new high grade gold discovery.

The Company has completed an internal review of the project's historic data and has commenced budgeting for an exploration programme at targeted locations. The Company is pleased to note recent positive developments in RC drilling in our neighbouring tenement by Manhattan Corporation (ASX: MHC), delivering impressive high grade gold assay results at close to surface. The Company is considering the implications of these exploration result outcomes so close to the Company's tenement package.

Mt Maitland Gold and Base Metals Project – 100%

After successful completion of second phase drilling at Mt Maitland last year, the Company is currently undertaking an internal assessment of the project with experienced consultant geologists before committing any expenditure on further exploration.

Batangas Gold Project, Philippines – Shares and NSR

The Company holds approximately 1.7m shares in London listed Blue Bird Merchant Ventures Limited (LON: BMV). Blue Bird is focused on its near-term production gold project in South Korea. BMV share price as at 31 March 2022 was 1.75 pence.

The Company retains its net smelter royalty over the Philippines located Batangas gold project.

Corporate

On 27 January 2022, the Company announced that it has received firm commitments from institutional and sophisticated investors to raise \$1.6 million (before costs) via a share placement of 177,905,556 fully paid ordinary shares at an issue price of \$0.009 per share ("**Placement**"). The Placement shares were issued on 4 February 2022.

The Company's cash position at the end of the March quarter was \$2.045 million.

The Company's registered office has changed to Suite 11, 23 Railway Road, Subiaco WA 6008. The Company's principal place of business of Suite 2, Level 1/1 Altona Street, West Perth WA 6005 remains unchanged.

New Projects

The Company continues to review and assess opportunities that will add value to its portfolio.

Authorised on behalf of the Board,

Mauro Piccini

Company Secretary
