QUARTERLY ACTIVITIES REPORT TO 31 MARCH 2022

The Directors of eMetals Limited (**ASX:EMT**) (**eMetals**) (**Company**) are pleased to submit the Quarterly Activities Report and Appendix 5B for the quarter ending 31 March 2022.

HIGHLIGHTS

- Acquisition of Salmon Gums Minerals Pty Ltd (ACN 651 315 258) (**Salmon Gums**) and its shareholders (**Salmon Gum Shareholders**) to acquire 100% of the issued capital in Salmon Gums. Salmon Gums holds two highly prospective tenement applications in the Albany Fraser Range Province of Western Australia (**ELA2126** and **ELA2127**) (**Project**).
- The Project covers an area of 163 blocks for a total of 469 square kilometers of the Eucla Basin prospective for Ionic Adsorption Clay (**IAC**) style rare earth element (**REE**) mineralisation.
- The Project is in close proximity to the Company's wholly owned Cowlinya REE Project which is adjacent to the Mount Ridley REE Project of Mount Ridley Mines Ltd (**MRD**).
- The Company has completed a strategic review of its project portfolio and will focus on the Salmon Gums Rare Earth Project.
- EMT is in the final stages of preparing a proposed exploration work program which is expected to commence within the June 2022 quarter.
- Completed capital raising of 350,000,000 Shares at \$0.0125 together with a free attaching option to raise \$4,375,000 before costs (**Placement**).

SALMON GUMS

Salmon Gums holds two exploration license applications known as E63/2126 and E63/2127 (**Applications**) in the south of Western Australia situated respectively 82 kilometers east and 18 kilometers northeast of the small town of Salmon Gums (Figure 1).

The Applications cover areas underlain by meta-granites of Archaean to Proterozoic age. These granitic rocks are situated within the Albany – Fraser Orogen on the south and southeastern margins of the Yilgarn Craton.

Outcrop of the meta-granites within the Applications is rare with most of the tenement overlain by Cainozoic sediments, aeolian sands and salt lakes. Whilst there are no known occurrences of

EMETALS LIMITED

mineralisation in either area very little prospecting or exploration has been historically conducted.

From a study of the open file reports available on WAMEX(A106697, A97441), the previous exploration which has been conducted has predominantly been for gold and to a lesser extent for uranium and base metals. In the period 2006 to 2008 Toro Energy Ltd completed 10 air-core drillholes within E63/2127 and assayed the resulting spoil for iron, copper, gold, nickel, lead, zinc, and uranium in a search for uranium mineralisation. In the period 2011 to 2012 AngloGold Ashanti (Australia) Ltd completed fence lines of auger drillholes across E63/2127 in a search for gold. Results from this small amount of exploration activity for a variety of commodities were inconclusive and it is notable that no exploration for rare earth element mineralisation (REE) over the tenement area has been conducted.

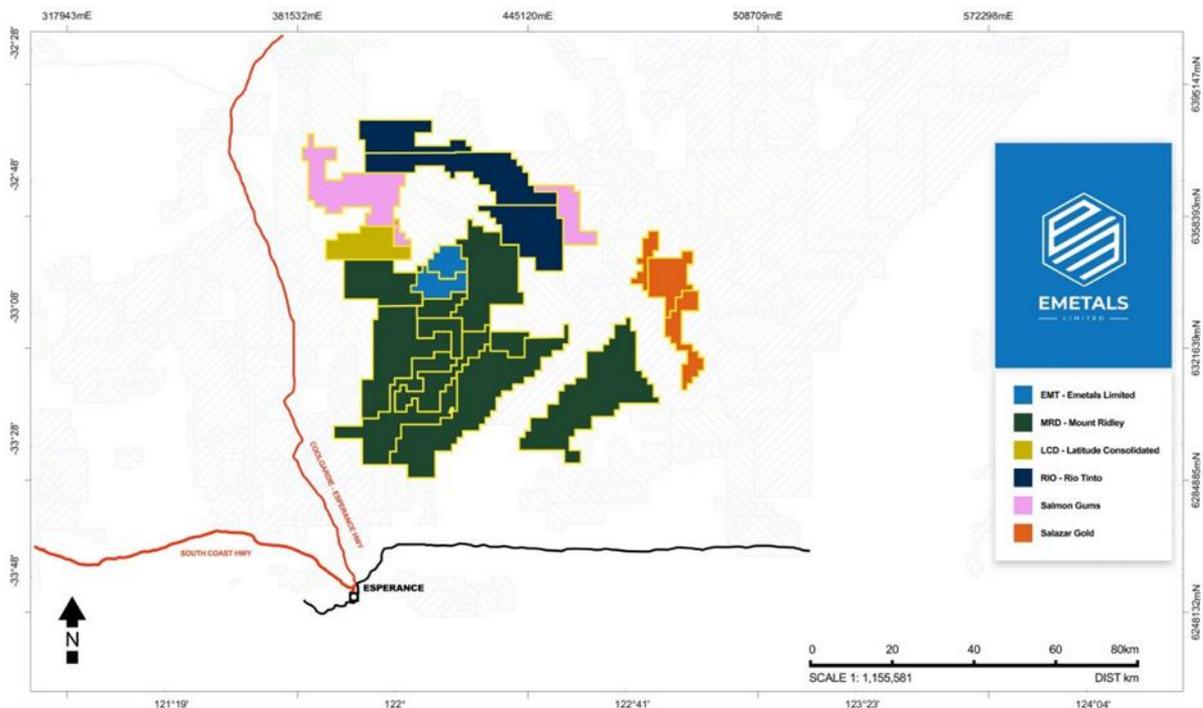

Figure 1 Salmon Gums Minerals Pty Ltd – Project Location

Mount Ridley Mines Ltd (ASX: MRD) (MRD) has recently discovered REE mineralisation approximately 35 kilometers southeast of E63/2127 and at a similar distance southwest of E63/2126. This mineralisation is situated in a clay horizon in similar lithologies to the Mount Ridley occurrence and derived from granitoid rocks. The mineralisation appears to average approximately 0.1% TREEO with even higher levels recorded up to approximately 1% TREEO (refer announcement ASX:MRD, 13 September 2021, Rare Earth Element Targets Extended). The MRD REE mineralisation occurs over a strike length of approximately 25 kilometers oriented in a northeast direction and appears to be similar to the clay-hosted REE mineralisation currently mined in China. Additionally, Salazar Gold Pty Ltd has recently discovered significant REE mineralisation approximately 20 kilometers southeast of E63/2126. Whilst the nature of this mineralisation remains unknown it is considered significant that REE occurrences are located in close proximity to the Applications.

Whilst the Applications have no known REE mineralisation, they have only been explored previously for gold and to a lesser extent base metals and uranium. It is not surprising that there

EMETALS

LIMITED

has been no previous exploration for REE in this region as there is practically no outcrop mitigating against prospectors discovering any sort of mineralisation. Additionally, this 'China' style of REE occurrences nearby require a specific soil sampling and drilling target program which has never been carried out on the Salmon Gums ground.

The proximity of other known REE mineralisation would suggest that the Project area is also prospective for this type of mineralisation. This clay-hosted REE mineralisation discovered by MRD nearby may extend onto or be duplicated within the targeted tenements and further investigations on the Salmon Gums ground is warranted.

ACQUISITION TERMS

EMT completed the acquisition in January 2022 following shareholder approval received at the extraordinary general meeting (**EGM**) held on 6 January 2022. As announced on 21 November 2021, the binding HOA with Salmon Gums and the Salmon Gum Shareholders (constituting Christiaan Paul Busing, Roger Blake and Tirumi Pty Ltd (ACN 604 410 255)) was to acquire 100% of the issued capital in Salmon Gums from the Salmon Gums Shareholders. Salmon Gums holds two highly prospective tenement applications, **ELA2126** and **ELA2127**, in the Albany Fraser Range Province of Western Australia (**Acquisition**) (**Agreement**).

In consideration for the Acquisition, and subject to the terms and conditions of the Agreement, eMetals agreed to issue 15,000,000 fully paid ordinary shares in the capital of eMetals (**Shares**) at a deemed issue price of \$0.02 per Share (**Consideration Shares**) to the Salmon Gums Shareholders (or their nominees).

Settlement was conditional upon the satisfaction (or waiver) of the following Conditions Precedent:

- (a) completion of financial, legal and technical due diligence by eMetals on the Company and the Project, to the absolute satisfaction of eMetals, within 60 days of the date of execution of the Agreement;
- (b) ASX confirming that Listing Rules 11.1.2 and 11.1.3 do not apply to the Acquisition;
- (c) eMetals completed a placement of 350,000,000 Shares to sophisticated and professional investors to raise \$4,375,000 (**Placement**), comprising two tranches as follows:
 - (i) 100,000,000 Shares at an issue price of \$0.0125 per Share, together with one free attaching option (exercisable at \$0.03 on or before 30 September 2025) for every one Share applied for and issued (**Tranche 1**); and
 - (ii) subject to shareholder approval, 250,000,000 Shares at an issue price of \$0.0125 per Share, together with one free attaching option (exercisable at \$0.03 on or before 30 September 2025) for every one Share applied for and issued (**Tranche 2**);
- (d) the parties obtaining all necessary shareholder and regulatory approvals (including eMetals obtaining shareholder approval for the issue of the Consideration Shares and the Tranche 2 Shares under the Placement) necessary to lawfully complete the matters set out in the Agreement; and
- (e) the Parties obtaining all third-party approvals and consents necessary to lawfully complete the matters set out in the Agreement,

(together, the **Conditions Precedent**).

EMETALS

LIMITED

CAPITAL RAISING

RM Corporate Finance Pty Ltd (AFSL 315235) (**Lead Manager**) (**RM Corporate**) had been appointed as lead manager to the Placement to which RM Corporate had received firm commitments for a total of 350,000,000 Placement Shares which were issued in January 2022.

Participants to the Placement received a 1 for 1 free attaching unlisted option exercisable at \$0.03 on or before 30 September 2025 (**Options**). Funds raised via the Placement will be applied to progressing the exploration activities & work programs on the current and acquired projects, project generation activities and general working capital purposes.

Tranche 1 was conducted under the Company's current Placement capacity pursuant to ASX Listing Rule 7.1 and 7.1A as follows and were issued on 26 November 2021:

- ASX Listing Rule 7.1 (63,750,000 Placement Shares); and
- ASX Listing Rule 7.1A (36,250,000 Placement Shares).

In addition, the Directors of eMetals sought to participate on the same terms as the Placement for up to 40,000,000 Placement Shares and 40,000,000 free attaching Options. This is in addition to the Placement and will raise up to \$500,000 from the participation. Approval by shareholders was received at the EGM held on 6 January 2022.

The Tranche 2 issue of the remaining 250,000,000 Placement Shares and free attaching 1 for 1 Placement Options (Tranche 1 and 2) was completed following approval by shareholders on 6 January 2022.

Settlement and issue of the Tranche 2 Placement Shares and Placement Options occurred on 13 January 2022. Placement Shares issued rank equally with shares currently on issue.

POONA PROJECT

Scorpion Minerals Limited (**SCN**) announced on 7 February 2022, that it had completed the acquisition following execution of the binding Heads of Agreement ("the agreement") with eMetals Limited (ASX:EMT) ("eMetals" or "EMT") to acquire a 100% interest in tenements E 20/896, E 20/963, E 20/964 and a 90% interest in E 20/885 (collectively the "tenements") which cover a combined 904km² in the Murchison Goldfield of Western Australia. Under the agreement, SCN will acquire its interest in the tenements for a cash consideration of \$12,500 and 4,000,000 fully paid ordinary shares in SCN. EMT will also receive a 0.5% net smelter return (NSR) royalty in respect of minerals mined from the Tenements should commercial mining be undertaken (Refer ASX Release by Scorpion Minerals Limited dated 6 December 2021 and SCN Release on 7 February 2022).

Shareholders and other interested parties can speak to Mr Sonu Cheema if they have any queries in relation to this announcement: +618 6489 1600.

Forward looking statements

This announcement contains forward-looking statements which are identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', or 'intends' and other similar words that involve risks and uncertainties. These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this announcement, are expected to take place. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, the directors and our management. We cannot and do not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this prospectus will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements. We have no intention to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this announcement, except where required by law. These forward looking statements are subject to various risk factors that could cause our actual results to differ materially from the results expressed or anticipated in these statements.

Competent Persons Statement

The information in this announcement that relates to Exploration Results is based on and fairly represents information and supporting documentation prepared by Mr Simon Coxhell. Mr Coxhell is a consultant geologist for eMetals and a member of the Australian Institute of Mining and Metallurgy. Mr Coxhell has sufficient experience relevant to the styles of mineralisation and types of deposits which are covered in this announcement and to the activity which they are undertaking to qualify as a Competent Person as defined in the 2012 edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' ("JORC Code"). Mr Coxhell consents to the inclusion in this announcement of the matters based on his information in the form and context in which it appears.

ASX Listing Rules Compliance

In preparing the Quarterly Report for the period ended 31 March 2022 and to date, the Company has relied on the following ASX announcements.

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

7. Financing facilities	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
<i>Note: the term "facility" includes all forms of financing arrangements available to the entity.</i>		
<i>Add notes as necessary for an understanding of the sources of finance available to the entity.</i>		
7.1 Loan facilities	-	-
7.2 Credit standby arrangements	-	-
7.3 Other (please specify)	-	-
7.4 Total financing facilities	-	-
7.5 Unused financing facilities available at quarter end		-
7.6 Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.	-	

8. Estimated cash available for future operating activities	\$A'000
8.1 Net cash from / (used in) operating activities (item 1.9)	(217)
8.2 (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(16)
8.3 Total relevant outgoings (item 8.1 + item 8.2)	(233)
8.4 Cash and cash equivalents at quarter end (item 4.6)	4,695
8.5 Unused finance facilities available at quarter end (item 7.5)	-
8.6 Total available funding (item 8.4 + item 8.5)	4,695
8.7 Estimated quarters of funding available (item 8.6 divided by item 8.3)	20.15
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: N/A	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: N/A	
8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
Answer: N/A	
<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>	

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date:27/04/2022.....

Authorised by:By the Board.....
(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
