Shaun Menezes  
Company Secretary

### About Diablo Resources Limited

Diablo is an Australian registered, USA-focused metals exploration and development company. The mineral assets of Diablo and its 100% owned subsidiaries comprise the Devil’s Canyon Au-Cu-Ag Project located in Nevada, the Western Desert Project Au-Cu-Ag located in Utah and the Lone Pine Gold Project located in Idaho, all within the USA (Fig. 1).

Figure 1 – Diablo Resources, United States of America (USA) project portfolio, located in the mining friendly states of Utah, Nevada and Idaho.

All three project areas have mineralisation at surface that require further exploration. Some prospect areas within the project areas appear to have only been lightly drilled or never been drill tested and present as priority targets.

The Company listed on the ASX on 12 October 2021 and is well funded to progress its project portfolio through systematic and focussed exploration. The Company has an in-country management team with expertise in all aspects of exploration activities in the Western USA.
