

Notice under section 708A(5)(e) of the Corporations Act 2001 (Cth)

Vulcan Energy Resources Limited (ASX:VUL) (the **Company**) has issued 11,448,959 fully paid ordinary shares in the Company (**Shares**) to Stellantis N.V. pursuant to the Subscription Agreement as announced on 24 June 2022.

The Company advises that:

- (a) the Shares were issued without disclosure to investors under Part 6D.2 of the Corporations Act 2001 (Cth) (**Corporations Act**);
- (b) this notice is being given under section 708A(5)(e) of the Corporations Act;
- (c) it is currently in advanced negotiations to enter into a Co-operation Agreement with a third party in relation to its Italian licence and the Company also expects to provide an update on its preliminary EIA application (UVP-V) in its Taro license;
- (d) as at the date of this notice, the Company has complied with:
 - (i) the provisions of Chapter 2M of the Corporations Act, as they apply to the Company; and
 - (ii) section 674 of the Corporations Act; and
- (e) as at the date of this notice, there is otherwise no excluded information, as defined in sections 708A(7) and (8) of the Corporations Act, that is reasonable for investors and their professional advisers to expect to find in a disclosure document.

VULCAN ENERGY ZERO CARBON LITHIUM™

About Vulcan

Vulcan is aiming to become the world's first lithium producer with net zero greenhouse gas emissions. Its ZERO CARBON LITHIUM™ Project intends to produce a battery-quality lithium hydroxide chemical product from its combined geothermal energy and lithium resource, which is Europe's largest lithium resource, in Germany. Vulcan's unique, ZERO CARBON LITHIUM™ Project aims to produce both renewable geothermal energy, and lithium hydroxide, from the same deep brine source. In doing so, Vulcan intends to address lithium's EU market requirements by reducing the high carbon and water footprint of production, and total reliance on imports. Vulcan aims to supply the lithium-ion battery and electric vehicle market in Europe, which is the fastest growing in the world. The Vulcan Zero Carbon Lithium™ Project has a resource which could satisfy Europe's needs for the electric vehicle transition, from a source with net zero greenhouse gas emissions, for many years to come.
