Telstra Orders \$1.3M of Beam "SatDOCK" In-vehicle Hands-free kits & Handsets

World Reach Limited announced today that its wholly owned subsidiary, Beam Communications Pty Ltd, has again received a substantial order from Telstra Corporation with a value of \$1.3M

The order is for a new bundled solution consisting of Beam's "SatDOCK" In-vehicle Hands-free Docking Station and an Iridium Satellite Telephone, offering a complete in-vehicle solution for Telstra customers.

Beam has experienced a very high level of demand for the latest SatDOCK terminals and this major order from Telstra further demonstrates the demand for these bundled solutions for the Australian market place.

Deliveries will commence in December and will be completed by January 2010

Yours faithfully

A handwritten signature in black ink, appearing to be "Michael Capocchi".

Michael Capocchi
Managing Director

About Beam Communications Pty Ltd

Beam Communications Pty Ltd is a wholly owned subsidiary of World Reach Limited; The Beam Communications subsidiary was established in 2002, making a substantial investment in the development and manufacturing of Remote Satellite Communications solutions for the global telecommunications market. Now one of the leading global manufacturers of Iridium-based satellite communications equipment, Beam offers the widest range of Iridium solutions across all market segments, and is particularly focused on the exploitation of the newly released Iridium data module targeted at asset tracking and other applications.

Beam most recently received the world's first approval for its Iridium 9555 Docking Station product, SatDOCK and is currently in the final stages of approvals for it's PotsDOCK, IntelliDOCK and LRIT terminals
