Second Quarter FY25 Business Update

Asset Management AUM of A\$230.2 billion, up 3.6%, supported by positive currency movements

Continued growth in FUA¹ in Corporate Trust and Wealth Management

Perpetual Limited (Perpetual) (ASX:PPT) today released its second quarter business update for the period ending 31 December 2024.

Chief Executive Officer and Managing Director, Bernard Reilly said, "There was a mixed performance in the December quarter across our three businesses. In our Asset Management business, while Assets Under Management (AUM) increased by nearly 4%, supported by positive currency movements, the business was also impacted by a decline in global and US value indices over the quarter, as well as net outflows.

"Corporate Trust delivered solid growth in Funds Under Administration (FUA) totalling 2.5%, supported by growth across the majority of products and in Wealth Management, the business delivered growth of 1% in Funds Under Advice (FUA) driven by favourable market movements."

Asset Management

Total AUM² was A\$230.2 billion as at 31 December 2024, an increase from A\$222.3 billion at 30 September 2024. The increase was primarily driven by positive currency movements of A\$15.8 billion, offset by net outflows of A\$3.8 billion and negative market movements of A\$4.1 billion. Average AUM was A\$227.0 billion compared to A\$220.7 billion in the September quarter.

- **Barrow Hanley's** AUM was A\$85.1 billion, up 8.4% on the September quarter. The increase in AUM was driven by favourable currency movements of A\$8.7 billion, partially offset by net outflows of A\$0.4 billion and negative equity market movements of A\$1.7 billion. Net outflows were predominantly in the Large Cap Value equities and Emerging Markets strategies, while the International Equities strategy had a strong quarter reporting A\$1.1 billion in net inflows, supported by a large institutional mandate.
- **J O Hambro Capital Management's (JOHCM)** AUM was A\$37.1 billion, down 0.9% compared to the September quarter, driven by net outflows of A\$2.1 billion and negative market movements of A\$0.9 billion, mostly offset by positive currency movements of A\$2.6 billion. The International Select and Global Opportunities strategies experienced outflows of A\$1.2 billion and A\$0.9 billion respectively. Pleasingly, investment performance has improved in the J O Hambro Global Select Strategy, which outperformed its benchmark in the year to 2024³. Outflows were largely in Global Equity and Sustainable Opportunities strategies.
- **TSW's** AUM was A\$31.5 billion, up 5.0% on the September quarter, driven by positive currency movements (A\$3.4 billion), partly offset by net outflows (A\$0.3 billion) and negative market impacts (A\$1.6 billion). Expense Guidance and Significant Items for the 2025 Half Year Financial Results

The devaluation of the Australian dollar results in higher revenue and expenses for the international business and performance fees result in higher variable remuneration expense (and higher revenues). Despite this, 1H25 expense growth is expected to continue to be in the guidance range previously provided of 2-4% growth in expenses for 1H25 and is expected to be at the upper end of that range⁵.

The cost to income ratio for the Group is expected to be relatively stable for 1H25 when compared to 1H24.

Significant items after tax for 1H25 are expected to be between A\$85 million to A\$92 million, subject to completion of audit.

2025 Half Year Financial Results

Perpetual's half year results for the 6 months to 31 December 2024 will be announced on Thursday 27 February 2025. Webcast and conference call details will be released to the ASX in the coming weeks.
