Market Update

Techniche Limited advises that the Company expects to report a half-year net profit after tax in the range of \$500,000 to \$600,000 dollars, subject to no major currency fluctuations.

This result is slightly behind budget and is impacted by the size and timing of some orders, with a number of orders slipping into the second half of the year.

The Company expects the second half-year profit to be materially higher and will provide a further market update in the new year with the publication of the half year results.
