Keytone Dairy Corporation Limited

ABN 49 621 970 652

Annual Report - 31 March 2020

The directors present their report, together with the financial statements, on the company for the year ended 31 March 2020.

Directors

The following persons were directors of the company during the financial period and / up to the date of this report, unless otherwise stated:

Peter James
Andrew Reeves
Robert Clisdell
James Gong
Daniel Rotman (appointed 31 July 2019)
Arie Nudel (appointed 31 July 2019)
Peter Graeme Hobman (resigned 9 March 2020)

Principal activities

The principal activity of the consolidated entity was the manufacture and export of dairy, health and wellness and nutritional products, with a particular focus on formulated powdered products, ready-to-drink protein drinks for both third party private label clients and the consolidated entity's proprietary product suite. The consolidated entity earns the majority of its revenues from the sales of its proprietary products, contract manufacturing for third party private label clients in Australia and the export of its New Zealand products to international markets, including China.

Dividends

There were no dividends paid, recommended or declared during the current or previous financial year.

Review of operations

The loss for the group after providing for income tax amounted to \$7,452,318 (31 March 2019: \$3,290,371).

Significant changes in the state of affairs

Acquisition

On 31 July 2019, the company acquired 100% of the ordinary shares of Omniblend Pty Ltd (Omniblend) for the total consideration transferred of \$18,050,415 (including \$8,050,415 cash consideration and \$10,000,000 shares issued to the vendors of Omniblend). The purchase agreement also includes additional consideration payable to the vendors of Omniblend if certain future financial performance conditions are met. The contingent consideration is fair valued at \$14,510,591 on the date of acquisition. Omniblend is a leading Australian product developer and manufacturer in the health and wellness sector, with both dry powder and ready to drink dairy based product capabilities.

On 17 October 2019, the company completed the strategic acquisition of the assets, brands and business of 40 Forty Foods Pty Limited, trading as Super Cubes, for \$1,151,507 including a deferred consideration of \$143,000 payable over 2 years. Super Cubes is a premium Australian consumer lifestyle health and wellness brand and has a strong core product range and a growing national distribution network.

Capital structure

On 30 July 2019, the company completed a capital raising of \$8.74 million (before costs) by issuing 20,323,124 fully paid ordinary shares at an issue price of \$0.43 per share under the Share Purchase Plan.

On 31 July 2019, 23,255,814 ordinary shares were issued at an issue price of \$0.43 per share to the Omniblend vendors as partial consideration for Omniblend acquisition.

On 1 August 2019, the company completed a capital raising of \$9.26 million (before costs) by issuing 21,536,719 fully paid ordinary shares at an issue price of \$0.43 per share.

Impact of COVID-19

On 11 March 2020, the World Health Organisation (“WHO”) declared the Coronavirus disease 2019 (“COVID-19”) a pandemic. The pandemic has adversely affected the global economy, including an increase in unemployment, decrease in consumer demand, interruptions in supply chains, and tight liquidity and credit conditions. Consequently, governments around the world have announced monetary and fiscal stimulus packages to minimise the adverse economic impact.

Notwithstanding the increasing and varied levels of Government lockdowns being implemented in New Zealand and Australia, Keytone Dairy as a good manufacturer is considered an essential service and will continue to operate through these challenging periods. The Group has a flexible and diversified operational base across six manufacturing sites in New Zealand and Australia, has implemented additional risk mitigation measures and stringent personal and food safety standards.

The COVID-19 situation is still evolving, and its full economic impact remains uncertain. However at this time the directors of the Group believe the risks associated with COVID-19 to the business are largely mitigated due to the close working relationship with key distributors, retail partners and suppliers. At this point in time the Directors do not expect that COVID-19 will have a material, adverse impact on the Group's ongoing business or the carrying value of its operational and intangible assets.

There were no other significant changes in the state of affairs of the group during the financial year.

Matters subsequent to the end of the financial year

On 11 May 2020, the company announced the followings:

- Acquisition of the assets of AusConfec Pty Ltd ("AusConfec") for \$2.25 million, consisting of state-of-the-art equipment for the manufacturing of protein bars with contracts with major supermarkets in Australia,
- Share Purchase Plan to offer 8,064,516 shares to existing eligible shareholders at a price of \$0.31 per share to raise up to \$2.5 million (before costs),
- A Placement to offer 40,322,581 shares to eligible shareholders in Australia and New Zealand at \$0.31 per share to raise up to \$12.5 million (before costs). The proceeds will be used to accelerate the Company's growth initiatives, including sales and marketing of its higher margin proprietary products, capital expenditure towards the AusConfec bar line, working capital and to provide funding to execute a pipeline of strategic acquisition opportunities.

The acquisition of the assets AusConfec Pty Ltd. The acquisition enables the manufacture of protein bars and the ability to bring in-house Keytone's proprietary brand, SuperCubes' Wholefoods to become vertically integrated, providing scale, additional margin and operating efficiencies.

On 19 May 2020, the company issued the followings:

- 5,500,000 performance shares at nil consideration to incentivise the company's employees. The issuance is approved by shareholders pursuant to Resolution 1 of the company's Notice of General Meeting dated 17 April 2020,
- 6,000,000 incentive options with a strike price of \$0.30 and 5,356,336 zero exercise price options to Mr Peter James as approved by shareholders pursuant to Resolution 2 of the company's Notice of General Meeting dated 17 April 2020,
- 569,474 zero exercise price options to Mr Andrew Reeves as approved by shareholders pursuant to Resolution 3 of the company's Notice of General Meeting dated 17 April 2020,
- 107,558 zero exercise price options to Mr Robert Clisdell as approved by shareholders pursuant to Resolution 4 of the company's Notice of General Meeting dated 17 April 2020, and
- 5,356,336 zero exercise price options to the company's Chief Financial Officer Mr Jourdan Thompson as approved by shareholders pursuant to Resolution 5 of the company's Notice of General Meeting dated 17 April 2020.

No other matter or circumstance has arisen since 31 March 2020 that has significantly affected, or may significantly affect the group's operations, the results of those operations, or the group's state of affairs in future financial years.

Likely developments and expected results of operations

Information on likely developments in the operations of the group and the expected results of operations have not been included in this report because the directors believe it would be likely to result in unreasonable prejudice to the group.

Environmental regulation

The group is not subject to any significant environmental regulation under Australian Commonwealth or State law.

Peter Hobman **	10	10

Held: represents the number of meetings held during the time the director held office.

- * Appointed 31 July 2019
- ** Resigned 9 March 2020

Remuneration report (audited)

The remuneration report details the key management personnel remuneration arrangements for the group, in accordance with the requirements of the Corporations Act 2001 and its Regulations.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including all directors.

The remuneration report is set out under the following main headings:

- Principles used to determine the nature and amount of remuneration
- Details of remuneration
- Service agreements
- Share-based compensation
- Additional disclosures relating to key management personnel

Principles used to determine the nature and amount of remuneration

The objective of the group's executive reward framework is to ensure reward for performance is competitive and appropriate for the results delivered. The framework aligns executive reward with the achievement of strategic objectives and the creation of value for shareholders, and it is considered to conform to the market best practice for the delivery of reward. The Board of Directors ('the Board') ensures that executive reward satisfies the following key criteria for good reward governance practices:

- competitiveness and reasonableness
- acceptability to shareholders
- performance linkage / alignment of executive compensation
- transparency

The Board is responsible for determining and reviewing remuneration arrangements for its directors and executives. The performance of the consolidated entity depends on the quality of its directors and executives. The remuneration philosophy is to attract, motivate and retain high performance and high quality personnel.

The reward framework is designed to align executive reward to shareholders' interests. The Board have considered that it should seek to enhance shareholders' interests by:

- having economic profit as a core component of plan design
- focusing on sustained growth in shareholder wealth, consisting of growth in share price, and delivering constant or increasing return on assets as well as focusing the executive on key non-financial drivers of value
- attracting and retaining high calibre executives

Additionally, the reward framework should seek to enhance executives' interests by:

- rewarding capability and experience
- reflecting competitive reward for contribution to growth in shareholder wealth
- providing a clear structure for earning rewards

In accordance with best practice corporate governance, the structure of non-executive director and executive director remuneration is separate.

Non-executive directors remuneration

Fees and payments to non-executive directors reflect the demands and responsibilities of their role. Non-executive directors' fees and payments are reviewed annually by the Board. The Board may, from time to time, receive advice from independent remuneration consultants to ensure that non-executive directors' fees and payments are appropriate and in line with the market. The chairman's fees are determined independently to the fees of other non-executive directors based on comparative roles in the external market. The chairman is not present at any discussions relating to the determination of his own remuneration.

In accordance with the Constitution, the total maximum remuneration of non-executive Directors is initially set by the Board and subsequent variation is by ordinary resolution of Shareholders in general meeting in accordance with the Constitution, the Corporations Act and the ASX Listing Rules, as applicable. The determination of non-executive Directors' remuneration within that maximum is made by the Board having regard to the inputs and value to the Company of the respective contributions by each non-executive Director. The current amount has been set at an amount not to exceed \$500,000 per annum.

Executive remuneration

The group aims to reward executives based on their position and responsibility, with a level and mix of remuneration which has both fixed and variable components.

The executive remuneration and reward framework has four components:

- base pay and non-monetary benefits
- short-term performance incentives
- share-based payments
- other remuneration such as superannuation and long service leave

The combination of these comprises the executive's total remuneration.

Fixed remuneration, consisting of base salary, superannuation and non-monetary benefits, is reviewed annually by the Board based on individual and business unit performance, the overall performance of the consolidated entity and comparable market remunerations.

Executives may receive their fixed remuneration in the form of cash or other fringe benefits (for example motor vehicle benefits) where it does not create any additional costs to the group and provides additional value to the executive.

The short-term incentives ('STI') program is designed to align the targets of the business units with the performance hurdles of executives. STI payments are granted to executives based on specific annual targets and key performance indicators ('KPI's') being achieved. KPI's include business growth, profit contribution, leadership contribution and product management.

The long-term incentives ('LTI') include long service leave and share-based payments. Shares are awarded to executives over a period of three years based on long-term incentive measures. These include increase in shareholders value relative to the entire market and the increase compared to the consolidated entity's direct competitors. The Board reviewed the long-term equity-linked performance incentives specifically for executives during the year ended 31 March 2020.

Consolidated entity performance and link to remuneration

Remuneration for certain individuals is directly linked to the performance of the consolidated entity. A portion of cash bonus and incentive payments is dependent on certain parameters being met. The remaining portion of the cash bonus and incentive payments are at the discretion of the Board.

The Board is of the opinion that the continued improved results can be attributed in part to the adoption of performance based compensation and is satisfied that this improvement will continue to increase shareholder wealth if maintained over the coming years.

Details of remuneration

Amounts of remuneration

Details of the remuneration of key management personnel of the group are set out in the following tables.

The key management personnel of the group consisted of the following directors of Keytone Dairy Corporation Limited:

18/07/2018	18/07/2024	\$0.30	1,000,000
23/11/2018	25/09/2021	\$0.68	4,000,000
31/07/2019	16.07/2022	\$0.61	2,000,000
31/07/2019	16.07/2023	\$0.61	1,000,000
31/07/2019	16.07/2024	\$0.61	1,000,000
31/07/2019	16.07/2025	\$0.61	1,000,000
			29,500,000

No person entitled to exercise the options had or has any right by virtue of the option to participate in any share issue of the company or of any other body corporate.

Shares issued on the exercise of options

There were no ordinary shares of the company issued on the exercise of options during the period ended 31 March 2020.

Indemnity and insurance of officers

The company has indemnified the directors and executives of the company for costs incurred, in their capacity as a director or executive, for which they may be held personally liable, except where there is a lack of good faith.

The company has paid a premium in respect of a contract to insure the directors and executives of the company against a liability to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

Indemnity and insurance of auditor

The company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the company or any related entity against a liability incurred by the auditor.

During the financial year, the company has not paid a premium in respect of a contract to insure the auditor of the company or any related entity.

Proceedings on behalf of the company

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the company, or to intervene in any proceedings to which the company is a party for the purpose of taking responsibility on behalf of the company for all or part of those proceedings.

Non-audit services

Details of the amounts paid or payable to the auditor for non-audit services provided during the financial year by the auditor are outlined in note 25 to the financial statements.

The directors are satisfied that the provision of non-audit services during the financial year, by the auditor (or by another person or firm on the auditor's behalf), is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001.

The directors are of the opinion that the services as disclosed in note 25 to the financial statements do not compromise the external auditor's independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor; and
- none of the services undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants issued by the Accounting Professional and Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the company, acting as advocate for the company or jointly sharing economic risks and rewards.

Officers of the company who are former partners of HLB Mann Judd Assurance (NSW) Pty Ltd

There are no officers of the company who are former partners of HLB Mann Judd Assurance (NSW) Pty Ltd.

Auditor's independence declaration

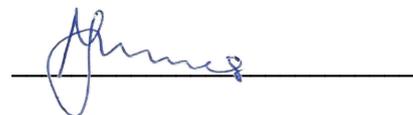

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this directors' report.

Auditor

HLB Mann Judd continues in office in accordance with section 327 of the Corporations Act 2001.

This report is made in accordance with a resolution of directors, pursuant to section 298(2)(a) of the Corporations Act 2001.

On behalf of the directors

29 May 2020

Auditor's Independence Declaration

To the directors of Keytone Dairy Corporation Limited:

As lead auditor for the audit of the consolidated financial report of Keytone Dairy Corporation Limited for the year ended 31 March 2020, I declare that, to the best of my knowledge and belief, there have been no contraventions of:

- (a) the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the audit; and
- (b) any applicable code of professional conduct in relation to the audit.

This declaration is in relation to Keytone Dairy Corporation Limited and the entities it controlled during the period.

A handwritten signature in black ink, appearing to read 'N J Guest'.

Note 1. Corporate Information

The annual report of Keytone Dairy Corporation Limited ('the company' or 'Keytone Australia') and its controlled entity (collectively 'consolidated entity' or 'group') for the year ended 31 March 2020 was authorised for issue in accordance with a resolution of the Directors on 27 May 2020.

Keytone Australia is a company limited by shares incorporated in Australia whose shares are traded on the Australian Securities Exchange ('ASX').

Note 2. Significant accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

The group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

The following Accounting Standards and Interpretations are most relevant to the consolidated entity:

AASB 16 Leases

The consolidated entity has adopted AASB 16 *Leases* ("AASB 16") from 1 April 2019. The standard replaces AASB 117 *Leases* and for lessees eliminates the classifications of operating leases and finance leases. Except for short-term leases and leases of low-value assets, right-of-use assets and corresponding lease liabilities are recognised in the statement of financial position. Straight-line operating lease expense recognition is replaced with a depreciation charge for the right-of-use assets (included in operating costs) and an interest expense on the recognised lease liabilities (included in finance costs). In the earlier periods of the lease, the expenses associated with the lease under AASB 16 will be higher when compared to lease expenses under AASB 117. However, EBITDA (Earnings Before Interest, Tax, Depreciation and Amortisation) results improve as the operating expense is now replaced by interest expense and depreciation in profit or loss. For classification within the statement of cash flows, the interest portion is disclosed in operating activities and the principal portion of the lease payments are separately disclosed in financing activities.

The impact on the financial performance and position of the consolidated entity from the adoption of AASB 16 is detailed in note 4.

Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Keytone Dairy Corporation Limited ('company' or 'parent entity') as at 31 March 2020 and the results of all subsidiaries for the year then ended. Keytone Dairy Corporation Limited and its subsidiaries together are referred to in these financial statements as the 'consolidated entity'.

Subsidiaries are all those entities over which the consolidated entity has control. The consolidated entity controls an entity when the consolidated entity is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated entity are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

Note 2. Significant accounting policies (continued)

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Non-controlling interest in the results and equity of subsidiaries are shown separately in the statement of profit or loss and other comprehensive income, statement of financial position and statement of changes in equity of the consolidated entity. Losses incurred by the consolidated entity are attributed to the non-controlling interest in full, even if that results in a deficit balance.

Where the consolidated entity loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The consolidated entity recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

Operating segments

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Chief Operating Decision Makers ('CODM') being the Board of Directors. The CODM is responsible for the allocation of resources to operating segments and assessing their performance.

Foreign currency translation

Items included in the financial statements of each of the group's entities are measured using the currency of the primary economic environment in which the entity operates. The consolidated financial statements are presented in Australian dollars ("AUD"), which is also the functional currency of the consolidated entity.

Foreign currency transactions

Foreign currency transactions are translated into Australian dollars using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at financial period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

On consolidation, assets and liabilities have been translated into AUD at the closing rate at the reporting date. Income and expenses have been translated into AUD at the average rate over the reporting period. Exchange differences are charged or credited to other comprehensive income and recognised in the foreign currency translation reserve in equity.

Revenue recognition

The Group recognises revenue as follows:

Sale of proprietary products and third party private label manufacturing

Sale of the Group's proprietary products and third party private label contract manufacturing products are measured at the fair value of consideration received.

The sale of these goods represents a single performance obligation and accordingly, revenue is recognised in respect of the sale of these goods at the point in time when control over the corresponding goods and services is transferred to the customer (i.e. at a point in time for sale of goods when the goods are shipped to the customer or transferred to the freight forwarder). Invoices are usually payable by customers within 30 - 60 days.

Interest

Interest income and expenses are reported on an accrual basis using the effective interest method.

Other revenue

Other revenue is recognised when it is received or when the right to receive payment is established.

Income tax

The income tax expense (income) for the year comprises current income tax expense (income) and deferred tax expense (income).

Note 2. Significant accounting policies (continued)

Current tax and deferred tax are recognised as an expense (income) except to the extent that they relate to a business combination or are recognised directly in equity or other comprehensive income. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (received from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax assets and deferred tax liability balances during the year as well as unused tax losses.

Current and deferred income tax expense (income) is recognised in equity instead of profit or loss when the tax relates to items that are credited or charged directly to equity.

Except for business combinations, no deferred income tax is recognised from the initial recognition of an asset or liability where there is no effect on accounting or taxable profit or loss.

Deferred tax liabilities (assets) are calculated at the tax rates that are expected to apply to the period when the liability is settled (asset is realised), and their measurement also reflects the manner in which Management expects to settle the carrying amount of the related liability (recover the assets).

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probably that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

Trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. The group holds the trade receivable with the objective of collecting the contractual cash flows and therefore measured them subsequently at amortised cost. Trade receivables are generally due for settlement within 30 - 60 days.

Other receivables are initially recognised at fair value and subsequently at amortised cost, less any allowance for expected credit losses.

The group has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade and other receivables have been grouped based on days overdue.

Trade and other receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets.

Inventories

Inventories are stated at the lower of cost, determined on a first in, first out basis and net realisable value. Cost includes all expenses directly attributable to the manufacturing process as well as suitable portions of related production overheads, based on normal operating capacity. Net realisable value is the estimated selling price in the ordinary course of business less any applicable selling expenses.

Investments and other financial assets

Investments and other financial assets are initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. Such assets are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on both the business model within which such assets are held and the contractual cash flow characteristics of the financial asset unless an accounting mismatch is being avoided.

Financial assets are derecognised when the rights to receive cash flows have expired or have been transferred and the group has transferred substantially all the risks and rewards of ownership. When there is no reasonable expectation of recovering part or all of a financial asset, its carrying value is written off.

Note 2. Significant accounting policies (continued)

Financial assets at amortised cost

A financial asset is measured at amortised cost only if both of the following conditions are met: (i) it is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and (ii) the contractual terms of the financial asset represent contractual cash flows that are solely payments of principal and interest.

Financial assets at fair value through other comprehensive income

Financial assets at fair value through other comprehensive income include equity investments which the group intends to hold for the foreseeable future and has irrevocably elected to classify them as such upon initial recognition.

Impairment of financial assets

The group recognises a loss allowance for expected credit losses on financial assets which are either measured at amortised cost or fair value through other comprehensive income. The measurement of the loss allowance depends upon the group's assessment at the end of each reporting period as to whether the financial instrument's credit risk has increased significantly since initial recognition, based on reasonable and supportable information that is available, without undue cost or effort to obtain.

Where there has not been a significant increase in exposure to credit risk since initial recognition, a 12-month expected credit loss allowance is estimated. This represents a portion of the asset's lifetime expected credit losses that is attributable to a default event that is possible within the next 12 months. Where a financial asset has become credit impaired or where it is determined that credit risk has increased significantly, the loss allowance is based on the asset's lifetime expected credit losses. The amount of expected credit loss recognised is measured on the basis of the probability weighted present value of anticipated cash shortfalls over the life of the instrument discounted at the original effective interest rate.

For financial assets mandatorily measured at fair value through other comprehensive income, the loss allowance is recognised in other comprehensive income with a corresponding expense through profit or loss. In all other cases, the loss allowance reduces the asset's carrying value with a corresponding expense through profit or loss.

Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impaired losses, if any.

Where an item of property, plant and equipment is disposed of or when no further economic benefits are expected from its use, the gain or loss (calculated as the difference between net sales price and the carrying amount of the asset) is recognised in the consolidated Statement of Profit or Loss and Other Comprehensive Income.

The asset residual values, useful lives and depreciation methods are reviewed annually and adjusted if appropriate at each financial year end.

Depreciation is recognised on a straight-line basis to allocate the cost less estimated residual value of plant and equipment. The principal rates in use were:

Plant and equipment	6% to 40%
Motor vehicles	20% to 30%
Furniture and fittings	10% to 20%
Office equipment	40% to 67%
Building improvements	10% to 33%

Asset under construction is stated at cost and not depreciated until it become available for use, that is, when it is in the location and condition necessary for it to be capable of operating in the manner intended by management.

Impairment of non-financial assets

At the end of each reporting period, the group assesses whether there is any indication that an asset may be impaired. The assessment will include considering both external and internal sources of information. If such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs of disposal and value in use, to the asset's carrying amount. Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss.

Where it is not possible to estimate the recoverable amount of an individual asset, the group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Note 2. Significant accounting policies (continued)

Right-of-use assets

A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the group expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right-of-use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

The group has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss as incurred.

Intangible assets

Intangible assets acquired as part of a business combination, other than goodwill, are initially measured at their fair value at the date of the acquisition. Intangible assets acquired separately are initially recognised at cost. Indefinite life intangible assets are not amortised and are subsequently measured at cost less any impairment. Finite life intangible assets are subsequently measured at cost less amortisation and any impairment. The gains or losses recognised in profit or loss arising from the derecognition of intangible assets are measured as the difference between net disposal proceeds and the carrying amount of the intangible asset. The method and useful lives of finite life intangible assets are reviewed annually. Changes in the expected pattern of consumption or useful life are accounted for prospectively by changing the amortisation method or period.

Goodwill

Goodwill arises on the acquisition of a business. Goodwill is not amortised. Instead, goodwill is tested annually for impairment, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Impairment losses on goodwill are taken to profit or loss and are not subsequently reversed.

Patents and trademarks

Significant costs associated with patents and trademarks are deferred and amortised on a straight-line basis over the period of their expected benefit, being their finite life of 10 years.

Customer contracts

Customer contracts acquired in a business combination are amortised on a straight-line basis over the period of their expected benefit, being their finite life of 10 years.

Brand name

Brand names acquired in business combinations have indefinite useful life and are not amortised. Brand names are tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Impairment losses on brand names are taken to profit or loss.

Trade and other payables

Trade and other payables are liabilities for goods and services provided to the group prior to the end of the financial period which are unpaid. These amounts are unsecured and generally payable within 30 days of recognition, due to their short-term nature their carrying value is assumed to approximate their fair value. Trade and other payables are initially recognised at fair value, and subsequently carried at amortised costs using the effective interest rate method.

Contract liabilities

Contract liabilities represent the group's obligation to transfer goods or services to a customer and are recognised when a customer pays consideration, or when the group recognises a receivable to reflect its unconditional right to consideration (whichever is earlier) before the group has transferred the goods or services to the customer.

Note 2. Significant accounting policies (continued)

Lease liabilities

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the group's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of-use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written down.

Provisions

Provisions are recognised when the group has a present (legal or constructive) obligation as a result of a past event, it is probable the group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. If the time value of money is material, provisions are discounted using a current pre-tax rate specific to the liability. The increase in the provision resulting from the passage of time is recognised as a finance cost.

Employee benefits

Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave, long service leave and accumulating sick leave expected to be settled wholly within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled. Non-accumulating sick leave is expensed to profit or loss when incurred.

Retirement benefits

The consolidated entity makes fixed percentage contributions for all Australian and New Zealand resident employees to complying third party superannuation funds and recognises the expenses as they become payable.

Other long-term employee benefits

The liability for annual leave and long service leave not expected to be settled within 12 months of the reporting date are measured at the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on high quality corporate bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Other long-term employee benefits

The liability for annual leave and long service leave not expected to be settled within 12 months of the reporting date are measured at the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on high quality corporate bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Share-based payments

Equity-settled and cash-settled share-based compensation benefits are provided to employees.

Note 2. Significant accounting policies (continued)

Equity-settled transactions are awards of shares, or options over shares, that are provided to employees in exchange for the rendering of services. Cash-settled transactions are awards of cash for the exchange of services, where the amount of cash is determined by reference to the share price.

The cost of equity-settled transactions is measured at fair value on grant date. Fair value is independently determined using either the Binomial or Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option, together with non-vesting conditions that do not determine whether the group receives the services that entitle the employees to receive payment. No account is taken of any other vesting conditions.

The cost of equity-settled transactions is recognised as an expense with a corresponding increase in equity over the vesting period. The cumulative charge to profit or loss is calculated based on the grant date fair value of the award, the best estimate of the number of awards that are likely to vest and the expired portion of the vesting period. The amount recognised in profit or loss for the period is the cumulative amount calculated at each reporting date less amounts already recognised in previous periods.

The cost of cash-settled transactions is initially, and at each reporting date until vested, determined by applying either the Binomial or Black-Scholes option pricing model, taking into consideration the terms and conditions on which the award was granted. The cumulative charge to profit or loss until settlement of the liability is calculated as follows:

- during the vesting period, the liability at each reporting date is the fair value of the award at that date multiplied by the expired portion of the vesting period.
- from the end of the vesting period until settlement of the award, the liability is the full fair value of the liability at the reporting date.

All changes in the liability are recognised in profit or loss. The ultimate cost of cash-settled transactions is the cash paid to settle the liability.

Market conditions are taken into consideration in determining fair value. Therefore any awards subject to market conditions are considered to vest irrespective of whether or not that market condition has been met, provided all other conditions are satisfied.

If equity-settled awards are modified, as a minimum an expense is recognised as if the modification has not been made. An additional expense is recognised, over the remaining vesting period, for any modification that increases the total fair value of the share-based compensation benefit as at the date of modification.

If the non-vesting condition is within the control of the group or employee, the failure to satisfy the condition is treated as a cancellation. If the condition is not within the control of the group or employee and is not satisfied during the vesting period, any remaining expense for the award is recognised over the remaining vesting period, unless the award is forfeited.

If equity-settled awards is cancelled, it is treated as if it has vested on the date of cancellation, and any remaining expense is recognised immediately. If a new replacement award is substituted for the cancelled award, the cancelled and new award is treated as if they were a modification.

Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Business combinations

The acquisition method of accounting is used to account for business combinations regardless of whether equity instruments or other assets are acquired.

Note 2. Significant accounting policies (continued)

The consideration transferred is the sum of the acquisition-date fair values of the assets transferred, equity instruments issued or liabilities incurred by the acquirer to former owners of the acquiree and the amount of any non-controlling interest in the acquiree. For each business combination, the non-controlling interest in the acquiree is measured at either fair value or at the proportionate share of the acquiree's identifiable net assets. All acquisition costs are expensed as incurred to profit or loss.

On the acquisition of a business, the group assesses the financial assets acquired and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic conditions, the group's operating or accounting policies and other pertinent conditions in existence at the acquisition-date.

Where the business combination is achieved in stages, the group remeasures its previously held equity interest in the acquiree at the acquisition-date fair value and the difference between the fair value and the previous carrying amount is recognised in profit or loss.

Contingent consideration to be transferred by the acquirer is recognised at the acquisition-date fair value. Subsequent changes in the fair value of the contingent consideration classified as an asset or liability is recognised in profit or loss. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity.

The difference between the acquisition-date fair value of assets acquired, liabilities assumed and any non-controlling interest in the acquiree and the fair value of the consideration transferred and the fair value of any pre-existing investment in the acquiree is recognised as goodwill. If the consideration transferred and the pre-existing fair value is less than the fair value of the identifiable net assets acquired, being a bargain purchase to the acquirer, the difference is recognised as a gain directly in profit or loss by the acquirer on the acquisition-date, but only after a reassessment of the identification and measurement of the net assets acquired, the non-controlling interest in the acquiree, if any, the consideration transferred and the acquirer's previously held equity interest in the acquirer.

Business combinations are initially accounted for on a provisional basis. The acquirer retrospectively adjusts the provisional amounts recognised and also recognises additional assets or liabilities during the measurement period, based on new information obtained about the facts and circumstances that existed at the acquisition-date. The measurement period ends on either the earlier of (i) 12 months from the date of the acquisition or (ii) when the acquirer receives all the information possible to determine fair value.

Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to the owners of Keytone Dairy Corporation Limited, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

Goods and Services Tax ('GST') and other similar taxes

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

Note 3. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Share-based payment transactions

The group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using either the Binomial or Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity.

Estimation of useful lives of assets

The group determines the estimated useful lives and related depreciation and amortisation charges for its property, plant and equipment and finite life intangible assets, including customer contracts through business combination. The useful lives could change significantly as a result of technical innovations or some other event. The depreciation and amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

Goodwill and other indefinite life intangible assets

The group tests annually, or more frequently if events or changes in circumstances indicate impairment, whether goodwill and other indefinite life intangible assets have suffered any impairment, in accordance with the accounting policy stated in note 2. The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. These calculations require the use of assumptions, including estimated discount rates based on the current cost of capital and growth rates of the estimated future cash flows.

Recovery of deferred tax assets

Deferred tax assets are recognised for deductible temporary differences only if the group considers it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Lease term

The lease term is a significant component in the measurement of both the right-of-use asset and lease liability. Judgement is exercised in determining whether there is reasonable certainty that an option to extend the lease or purchase the underlying asset will be exercised, or an option to terminate the lease will not be exercised, when ascertaining the periods to be included in the lease term. In determining the lease term, all facts and circumstances that create an economical incentive to exercise an extension option, or not to exercise a termination option, are considered at the lease commencement date. Factors considered may include the importance of the asset to the group's operations; comparison of terms and conditions to prevailing market rates; incurrence of significant penalties; existence of significant leasehold improvements; and the costs and disruption to replace the asset. The group reassesses whether it is reasonably certain to exercise an extension option, or not exercise a termination option, if there is a significant event or significant change in circumstances.

Business combinations

As discussed in note 2, business combinations are initially accounted for on a provisional basis. The fair value of assets acquired, liabilities and contingent liabilities assumed are initially estimated by the group taking into consideration all available information at the reporting date. Fair value adjustments on the finalisation of the business combination accounting is retrospective, where applicable, to the period the combination occurred and may have an impact on the assets and liabilities, depreciation and amortisation reported.

Note 4. Impact on the adoption of AASB 16

Change in accounting policy

The consolidated entity has adopted AASB 16 using the modified retrospective approach where the cumulative effect of adopting the standard is recognised in opening retained earnings at 1 April 2019, with no restatement of prior year comparative information. As a result of adopting AASB 16, the consolidated entity has changed its accounting policies which are included in note 1. Practical expedients applied on transition and the impact on the adoption of AASB 16 are detailed below.

Practical expedients applied on transition

In applying AASB 16 for the first time, the consolidated entity has used the following practical expedients on transition:

- elected not to reassess whether a contract is, or contains, a lease at the date of the initial application. Instead for contracts entered into before the transition date, the consolidated entity relied on assessments made applying AASB 117 Leases and Interpretation 4: Determining whether an Arrangement contains a lease;
- the accounting for operating leases with a remaining lease term of less than 12 months as at 1 April 2019 as short term leases;
- reliance on previous assessments on whether leases are onerous;
- the use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease, and
- the use of a single discount rate to a portfolio of leases with similar characteristics.

Impact of adoption

On the date of initial application, the consolidated entity recognised lease liabilities in relation to leases which have previously been classified as 'operating leases' under the principles of AASB 117 Leases. The lease liabilities are measured at the present value of minimum lease payments for the lease term, discounted using a weighted average incremental borrowing rate of 5.0%.

The associated right-of-use assets for property and equipment leases were measured on a retrospective basis as if the new rules had always been applied.

Reconciliation of lease liabilities from non-cancellable operating lease commitments at 31 March 2019 to lease liabilities recognised on 1 April 2019 is shown below:

	Consolidated 2020 \$
Reconciliation of lease liabilities:	
Non-cancellable operating leases at 31 March 2019	732,995
Discounted using lessee's incremental borrowing rate of at the date of initial application	(147,973)
Adjustment relating to changes to index affecting variable payments	(10,429)
Lease liabilities recognised on 1 April 2019	574,593

The change in accounting policy affected the following items in the balance sheet on 1 April 2019:

- Right-of-use assets - increase by \$539,738
- Lease liabilities - increase by \$574,593
- Deferred tax assets - increase by \$145,829
- Deferred tax liabilities - increase by \$145,829

The net impact on accumulated losses on 1 April 2019 was an increase of \$34,855.

Note 5. Operating segments

The group operates across Australia and New Zealand, and accordingly, monitors its revenue and sales as such. These segments have been determined based on how the Board of Directors (the chief operating decision-maker) review the financial information.

Operating segment information

	Australia \$	New Zealand \$	Other segments \$	Total \$
Consolidated - 2020

Note 6. Revenue

	Consolidated	
	2020	2019
	\$	\$
Sale of proprietary products and third party private label manufacturing	<u>22,532,925</u>	<u>2,504,739</u>

The Group derives its revenue from contracts with customers for the transfer of goods at a point in time in the following major product lines.

Note 6. Revenue (continued)

Disaggregation of revenue

The disaggregation of revenue from contracts with customers is as follows:

	Consolidated	Consolidated
	2020	2019
	\$	\$
<i>Major product lines</i>		
Proprietary Brands	2,021,912	1,134,885
Contract Manufacturing (OEM)	19,108,950	940,404
Unallocated	1,402,063	429,450
	<u>22,532,925</u>	<u>2,504,739</u>
<i>Geographical regions</i>		
Australia	17,506,101	-
New Zealand	5,026,824	2,504,739
	<u>22,532,925</u>	<u>2,504,739</u>
<i>Timing of revenue recognition</i>		
Goods transferred at a point in time	<u>22,532,925</u>	<u>2,504,739</u>

During the year ended 31 March 2020 , approximately \$9,839,549 (2019: \$1,055,000) of the Group's external revenue was derived from sales to 3 major customers and \$6,990,160 of total revenue was derived from the sale to one customer (2019: \$496,198).

Note 7. Income tax benefit

	Consolidated	Consolidated
	2020	2019
	\$	\$
<i>Income tax benefit</i>		
Deferred tax - origination and reversal of temporary differences	(218,834)	-
Aggregate income tax benefit	<u>(218,834)</u>	<u>-</u>
Deferred tax included in income tax benefit comprises:		
Decrease in deferred tax liabilities (note 17)	(218,834)	-
<i>Numerical reconciliation of income tax benefit and tax at the statutory rate</i>		
Loss before income tax benefit	<u>(7,671,152)</u>	<u>(3,290,371)</u>
Tax at the statutory tax rate of 27.5% (2019: 30%)	(2,109,567)	(987,111)
Difference in overseas tax rates	(4,798)	8,833
Non-deductible expenses	524,247	412,766
Timing differences	222,754	18,214
Tax losses not recognised	1,148,530	547,298
Income tax benefit	<u>(218,834)</u>	<u>-</u>

The group has accumulated tax losses of \$1,695,828. The benefit of these losses will only be recognised where it is probable that future taxable profit will be available against which the benefit of the deferred tax asset can be utilised.

Note 8. Current assets - cash and cash equivalents

	<u>5,367,071</u>	<u>242,644</u>

Details of trade receivables past due but not impaired are as follows:

	Consolidated	
	2020	2019
	\$	\$
61 - 90 days overdue	105,504	-
Over 91 days	337,538	25,523
	<u>443,042</u>	<u>25,523</u>

Allowance for expected credit losses

Current trade receivables are non-interest bearing and generally on 30-60 days terms for Australia and New Zealand entities. The Group applies the AASB 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables and contract assets. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. Based on this analysis, the group considered that no allowance for expected credit losses was required at 31 March 2020 (2019: \$Nil).

Note 10. Current assets - inventories

Balance at 31 March 2020	<u><u>3,025,408</u></u>	<u><u>1,514,281</u></u>	<u><u>5,409,514</u></u>	<u><u>75,059</u></u>	<u><u>121,031</u></u>	<u><u>142,102</u></u>	<u><u>10,287,395</u></u>

Assets under construction represent specific production lines and assets in the second manufacturing facility, being the canning line, blender and zip lock machine, where commercial production was not undertaken in the FY20 year as the lines were continuing to be commissioned. The equipment will be commissioned post year-end and will be re-recorded to plant and equipment and depreciated appropriately once commissioning is complete.

Note 13. Non-current assets - intangibles

	Consolidated	
	2020	2019
	\$	\$
Goodwill - at cost	24,794,393	-
Patents and trademarks - at cost	61,686	-
Less: Accumulated amortisation	(1,660)	-
	<u>60,026</u>	<u>-</u>
Customer contracts - at cost	3,995,000	-
Less: Accumulated amortisation	(266,333)	-
	<u>3,728,667</u>	<u>-</u>
Brand name - at cost	3,400,000	-
	<u><u>31,983,086</u></u>	<u><u>-</u></u>

Reconciliations

Reconciliations of the written down values at the beginning and end of the current and previous financial year are set out below:

Consolidated	Goodwill \$	Patents and trademarks \$	Customer contracts \$	Brand name \$
Balance at 1 April 2018	-	-	-	-
Balance at 31 March 2019	-	-	-	-
Additions	-	61,686	-	-
Additions through business combinations (note 29)	24,794,393	9,229	3,995,000	3,400,000
Amortisation expense	-	(10,889)	(266,333)	-
Balance at 31 March 2020	<u><u>24,794,393</u></u>	<u><u>60,026</u></u>	<u><u>3,728,667</u></u>	<u><u>3,400,000</u></u>

Intangible assets, other than goodwill and brand names have finite useful lives. Goodwill and brand names have an indefinite useful life.

Impairment testing

Goodwill acquired through business combinations have been allocated to the following cash-generating units:

	Consolidated	
	2020	2019
	\$	\$
Cash-generating units		
Proprietary Brands - Australia	646,044	-
Contract Manufacturing (OEM) - Australia	24,148,349	-
	<u><u>24,794,393</u></u>	<u><u>-</u></u>

The recoverable amount of the consolidated entity's goodwill has been determined by a value-in-use calculation using a discounted cash flow model, based on a one year projection period approved by management and 4-year forward plans supplied by management.

Key assumptions are those to which the recoverable amount of an asset or cash-generating units is most sensitive.

Note 13. Non-current assets - intangibles (continued)

The following key assumptions were used in the discounted cash flow model for the Australian Proprietary Brands division:

- Discount rates (pre-tax): 16% to 18 %
- Terminal growth rate: 2.5%
- Revenue base on forecast for year ending 31 March 2021 increase at average of: 11% in subsequent years.

The following key assumptions were used in the discounted cash flow model for the Australian Contract Manufacturing (OEM) division:

- Discount rates (pre-tax): 10 - 12%
- Terminal growth rate: 2.5%
- Revenue base on forecast for year ending 31 March 2021 increase at average of: 19% in subsequent years.

Based on these assumptions the Directors have determined that no impairment charge shall be recognised during the current reporting period.

The calculation of value-in-use is most sensitive to the following assumptions:

- Revenue growth
- Discount rate
- Terminal growth rate

Revenue growth - Revenue projections have been constructed with reference to the FY21 budget and four-year forward looking plans adjusted for recent performance trends.

Discount rates - Discount rates represent the risk specific to each CGU, taking into consideration the time value of money and individual risks of the underlying cash flows expected from the CGU being assessed. The discount rate calculation is based on the specific circumstances of the group and its CGUs and is derived from its weighted average cost of capital (WACC). The WACC considers both debt and equity.

Terminal growth rate - A terminal growth rate 2.5% has been used for future cash flow growth beyond the five-year forecast period. The total value of expected cash flows beyond the forecast period is discounted to present values using the discount rate specific to each CGU.

Sensitivity analysis

If discount rates were changed to the rates detailed in the table below with no change to any of the other assumptions, the estimated recoverable amount would approximately equal the carrying amount.

If forecast EBIT and/or revenue used was changed by the amounts noted in the table below with no change to any of the other assumptions the estimated recoverable amount would approximately equal the carrying amount.

	Proprietary Brands - Australia	Contract Manufacturing (OEM) - Australia
Discount rate – change discount rates to	75%	14%
Revenue change – reduce revenue by	10%	11%
EBIT change – reduce forecast EBIT by	87%	24%

Note 14. Current liabilities - trade and other payables

	Consolidated	
	2020	2019
	\$	\$
Trade payables	4,473,600	341,423
GST payable	228,907	-
Other payables	1,285,001	89,290
	<u>5,987,508</u>	<u>430,713</u>

Note 15. Current liabilities - Other liabilities

	Consolidated	
	2020	2019
	\$	\$
Deferred consideration	143,000	-

Deferred consideration

Deferred consideration represents the obligation to pay contingent consideration following the acquisition of a business or assets, as set out in note 29. It is measured at the present value of the estimated liability.

Note 16. Current liabilities - Contract liabilities

	Consolidated	
	2020	2019
	\$	\$
Amount received in advance on sale of proprietary products and third party private label manufacturing	<u>283,428</u>	<u>113,889</u>

Revenue from contracts with customers is recognised when the underlying performance obligations are satisfied at a point in time. Amounts received in advance from customers or amounts that are unconditionally receivable from customers prior to revenue being recognised are recorded as a contract liability until the point in time when the underlying performance conditions are satisfied and the services have been ultimately rendered to the customer.

Management expects that 100% of the transaction price allocated to the unsatisfied contracts as of the year ended 31 March 2020 will be recognised as revenue during the next reporting period.

Note 17. Non-current liabilities - deferred tax

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the company does not have a limited amount of authorised capital.

Note 18. Equity - issued capital (continued)

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

Share buy-back

There is no current on-market share buy-back.

Capital risk management

The group's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

Capital is regarded as total equity, as recognised in the statement of financial position, plus net debt. Net debt is calculated as total borrowings less cash and cash equivalents.

In order to maintain or adjust the capital structure, the group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Note 19. Equity - reserves

	Consolidated	
	2020	2019
	\$	\$
Foreign currency reserve	54,231	4,720
Options reserve	3,379,480	2,255,731
Contingent consideration reserve	14,510,591	-
	<u>17,944,302</u>	<u>2,260,451</u>

Foreign currency reserve

The reserve is used to recognise exchange differences arising from the translation of the financial statements of foreign operations to Australian dollars.

Options reserve

The reserve is used to recognise the value of equity benefits provided to employees and directors as part of their remuneration, and other parties as part of their compensation for services.

Contingent consideration reserve

The reserve is used to recognise the fair value of contingent consideration relating to the acquisition of Omniblend Pty Ltd as outlined in note 29.

Note 20. Equity - accumulated losses

	Consolidated	
	2020	2019
	\$	\$
Accumulated losses at the beginning of the financial year	(3,323,004)	(32,633)
Adjustment for change in accounting policy (note 4)	(34,855)	-
Accumulated losses at the beginning of the financial year - restated	(3,357,859)	(32,633)
Loss after income tax benefit for the year	(7,452,318)	(3,290,371)
Accumulated losses at the end of the financial year	<u>(10,810,177)</u>	<u>(3,323,004)</u>

Note 21. Equity - dividends

There were no dividends paid, recommended or declared during the current or previous financial year.

Note 22. Performance Shares

Existing shareholders of Keytone NZ were granted 49,500,000 Performance Shares, each convertible to one Ordinary Share in Keytone Australia upon achievement of various performance milestones, as follows:

Shareholders	Milestones	Number on issue
Class A Performance Share	Each Class A Performance Share will convert into one Share upon the Company achieving \$3,000,000 of earnings before interest, taxes, depreciation and amortisation (EBITDA) in any financial year occurring on or before the third anniversary of the last day of the financial year in which the Company was admitted to the Official List (i.e. by 31 March 2022).	16,500,000
Class B Performance Share	Each Class B Performance Share will convert into one Share upon the Company achieving \$6,000,000 of EBITDA in any financial year occurring on or before the third anniversary of the last day of the financial year in which the Company was admitted to the Official List (i.e. by 31 March 2022).	16,500,000
Class C Performance Share	Each Class C Performance Share will convert into one Share upon: (i) the Shares achieving a 30-day volume weighted average price per Share exceeding \$0.30, and (ii) the Company achieving \$6,000,000 of revenue in any financial year occurring on or before the third anniversary of the last day of the financial year in which the Company was admitted to the Official List (i.e. by 31 March 2022).	16,500,000

As part of the purchase consideration of the acquisition of Omniblend Pty Limited, the vendors of Omniblend were granted the following performance shares:

Note 22. Performance Shares (continued)

Shareholders	Milestones	Number of issue
Class D Performance Share	Each Class D Performance Share will convert into one ordinary share in the company upon Omniblend achieving \$2.6 million of annual earnings before interest, taxes, depreciation and amortisation (EBITDA) in any financial year occurring on or before the second anniversary of the last day of the financial year in which the SPA was signed, being 17 June 2019	23,255,814
Class E Performance Share	Each Class E Performance Share will convert into one ordinary share in the company upon a VWAP over a period of 30-day consecutive trading days upon which the company's shares trade at a price greater than \$0.65, AND Omniblend achieves \$50m annual revenues in any financial year occurring on or before the third anniversary of the last day of the financial year in which the SPA is signed, being 17 June 2019.	23,255,814
Class F Performance Share	The Class F Performance Shares will convert into one ordinary share in the company upon achieving a VWAP over a period of 30-day consecutive trading days upon which the company's shares trade at a price greater than \$1.00, AND Omniblend achieves \$100m annual revenues and \$7.5m of annual EBITDA in any financial year occurring on or before the third anniversary of the last day of the financial year in which the SPA is signed, being 17 June 2019.	23,255,814

In connection with the acquisition of Super Cube, the incoming employees were granted the following performance shares in relation to their employment with the Group:

Note 22. Performance Shares (continued)

Shareholders	Milestones	Number of issue
Class G Performance Share	<p>2,200,000 Class G performance share will convert into:</p> <p>(i) 2,200,000 ordinary shares in the Company upon Super Cube achieving sales revenue exceeding \$20,000,000; OR</p> <p>(ii) 850,000 ordinary shares in the Company upon Super Cube achieving sales revenue exceeding \$15,000,000 but less than \$20,000,000,</p> <p>in the financial year ending 31 March 2021.</p>	2,200,000
Class H Performance Share	<p>3,300,000 Class H performance share will convert into:</p> <p>(i) 3,300,000 ordinary shares in the Company upon Super Cube achieving sales revenue exceeding \$35,000,000 and Omni Brands Pty Ltd achieving EBITDA exceeding \$5,000,000; OR</p> <p>(ii) 1,500,000 ordinary shares in the Company upon Super Cube achieving sales revenue exceeding \$27,500,000 but less than \$30,000,000 and Omni Brands Pty Ltd achieving EBITDA exceeding \$4,000,000,</p> <p>in the financial year ending 31 March 2022.</p>	3,300,000

None of the milestones were met in the period ended 31 March 2020 and no Performance Shares were converted to Ordinary Shares during the year.

Note 23. Financial instruments

Financial risk management objectives

The group's activities expose it to a variety of financial risks: market risk (including foreign currency risk and interest rate risk), credit risk and liquidity risk. The group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the group. The group uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate, foreign exchange and other price risks.

Risk management is carried out by senior finance executives ('finance') under policies approved by the Board of Directors ('the Board'). These policies include identification and analysis of the risk exposure of the group and appropriate procedures, controls and risk limits. Finance identifies, evaluates and hedges financial risks within the group's operating units. Finance reports to the Board on a monthly basis.

Market risk

Foreign currency risk

The Group undertakes certain transactions denominated in foreign currency and is exposed to foreign currency risk through foreign exchange rate fluctuations. Foreign exchange risk arises from future commercial transactions and recognised financial assets and financial liabilities denominated in a currency that is not the Group's functional currency. As the Group primarily transacts using its functional currency, foreign currency risk is deemed to be minimal.

Note 23. Financial instruments (continued)

Price risk

The group is not exposed to any significant price risk.

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the group. The group has a strict code of credit, including obtaining agency credit information, confirming references and setting appropriate credit limits. The group obtains guarantees where appropriate to mitigate credit risk. The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements. The group does not hold any collateral.

The group has adopted a lifetime expected loss allowance in estimating expected credit losses to trade receivables through the use of a provisions matrix using fixed rates of credit loss provisioning. These provisions are considered representative across all customers of the group based on recent sales experience, historical collection rates and forward-looking information that is available.

The Group deemed its credit risk to be minimal as payments are mainly received in advance.

Generally, trade receivables are written off when there is no reasonable expectation of recovery. Indicators of this include the failure of a debtor to engage in a repayment plan, no active enforcement activity and a failure to make contractual payments for a period greater than 1 year.

Liquidity risk

Vigilant liquidity risk management requires the group to maintain sufficient liquid assets (mainly cash and cash equivalents) and available borrowing facilities to be able to pay debts as and when they become due and payable.

The group manages liquidity risk by maintaining adequate cash reserves and by continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities.

Remaining contractual maturities

The following tables detail the group's remaining contractual maturity for its financial instrument liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the financial liabilities are required to be paid. The tables include both interest and principal cash flows disclosed as remaining contractual maturities and therefore these totals may differ from their carrying amount in the statement of financial position.

Consolidated - 2020	Weighted average interest rate %	1 year or less \$	Between 1 and 2 years \$	Between 2 and 5 years \$	Over 5 years \$	Remaining contractual maturities \$
Non-derivatives						
<i>Non-interest bearing</i>						
Trade and other payables	-	5,987,508	-	-	-	5,987,508
<i>Interest-bearing - variable</i>						
Lease liability	5.00%	900,036	930,465	2,879,412	5,854,592	10,564,505
Total non-derivatives		<u>6,887,544</u>	<u>930,465</u>	<u>2,879,412</u>	<u>5,854,592</u>	<u>16,552,013</u>

The cash flows in the maturity analysis above are not expected to occur significantly earlier than contractually disclosed above.

Fair value of financial instruments

Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value.

Note 24. Key management personnel disclosures

Directors

The following persons were directors of Keytone Dairy Corporation Limited during the financial year:

Peter Richard James
 Andrew Reeves
 Robert Clisdell
 James Gong
 Daniel Rotman (appointed 31 July 2019)
 Arie Nudel (appointed 31 July 2019)
 Peter Graeme Hobman (resigned 9 March 2020)

Other key management personnel

The following persons also had the authority and responsibility for planning, directing and controlling the major activities of the group, directly or indirectly, during the financial year:

Jourdan Thompson	Chief Financial Officer
Vivienne Cheung	Chief Operating Officer (resigned 20 November 2019)

Compensation

The aggregate compensation made to directors and other members of key management personnel of the group is set out below:

	Consolidated	
	2020	2019
	\$	\$
Short-term employee benefits	1,874,666	1,021,009
Post-employment benefits	115,481	56,439
Long-term benefits	79,496	-
Share-based payments	752,555	1,228,171
	<u>2,822,198</u>	<u>2,305,619</u>

Note 25. Remuneration of auditors

During the financial year the following fees were paid or payable for services provided by HLB Mann Judd Assurance (NSW) Pty Ltd, the auditor of the company:

	Consolidated	
	2020	2019
	\$	\$
<i>Audit services - HLB Mann Judd Assurance (NSW) Pty Ltd</i>		
Audit or review of the financial statements	103,250	40,500
<i>Other services - HLB Mann Judd Assurance (NSW) Pty Ltd</i>		
Independence accountant's report	-	15,000
Others	5,000	1,416
	<u>5,000</u>	<u>16,416</u>
	<u>108,250</u>	<u>56,916</u>

Note 26. Commitments

No significant capital expenditure contracted as at the end of the reporting period but not recognised as a liability. Prior year commitments include the balance of land purchase consideration payable for lot 5, additional building works on the manufacturing facility currently under construction and commitments for plant and equipment to be installed in the new manufacturing facility as it is finalised.

	Consolidated	
	2020	2019

Guarantees entered into by the parent entity in relation to the debts of its subsidiaries

The parent entity has the following guarantees in relation to the debts of its subsidiaries as at 31 March 2020 (2019: nil)

- Asset Finance Limit of \$1.9 million in name of Omniblend Pty Ltd; and
- Bank Guarantee Facility of \$230,000 in the name of Omniblend Pty Ltd.

Contingent liabilities

The parent entity had no contingent liabilities as at 31 March 2020 and 2019.

Capital commitments - Property, plant and equipment

The parent entity had no capital commitments for property, plant and equipment as at 31 March 2020 and 2019.

Significant accounting policies

The accounting policies of the parent entity are consistent with those of the group, as disclosed in note 2, except for the following:

- Investments in subsidiaries are accounted for at cost, less any impairment.
- Investments in associates are accounted for at cost, less any impairment.
- Dividends received from subsidiaries are recognised as other income by the parent entity and its receipt may be an indicator of an impairment of the investment.

Note 29. Business combinations

Acquisition of Omniblend Pty Ltd

On 31 July 2019, the company acquired 100% of the ordinary shares of Omniblend Pty Ltd (Omniblend) for the total consideration transferred of \$18,050,415 (including \$8,050,415 cash consideration and \$10,000,000 shares issued to the vendor of Omniblend). The purchase agreement also include the following consideration payable to the vendors of Omniblend if the following conditions are met:

- 23,255,814 unlisted Performance Shares (being the Class D Performance Shares) which convert to Ordinary Shares on Omniblend achieving EBITDA of \$2,600,000 in any financial year occurring on or before the second anniversary of the last year of the financial year in which the Share Purchase Agreement between the company and the Omniblend Vendors was signed, being 17 June 2019.
- 23,255,814 unlisted Performance Shares (being the Class E Performance Shares) which convert to Ordinary Shares on the company achieving a 30-day VWAP that is greater than \$0.65 and Omniblend achieving annual revenue of \$50,000,000 in any financial year occurring on or before the third anniversary of the last year of the financial year in which the Share Purchase Agreement between the company and the Omniblend Vendors was signed, being 17 June 2019.
- 23,255,814 unlisted Performance Shares (being the Class F Performance Shares) which convert to Ordinary Shares on the company achieving a 30-day VWAP that is greater than \$1.00 and Omniblend achieving annual revenue of \$100,000,000 and EBITDA of \$7,500,000 in any financial year occurring on or before the third anniversary of the last year of the financial year in which the Share Purchase Agreement between the company and the Omniblend Vendors was signed, being 17 June 2019.

The fair value of the contingent consideration of \$14,510,591 has been calculated based on the Black-Scholes and Binomial Option Pricing models and based on management's estimate of the probability of achieving the conditions above. As at 31 March 2020, there have been no changes in management's estimation.

Omniblend is a product developer and manufacturer in the health and wellness sector, with both dry powder and ready to drink dairy based product capability. The acquisition enables the group to fast track its development and is underpinned by a strong strategic rationale and articulated upon the group's four-pillar growth strategy.

Acquisition of Super Cubes

On 17 October 2019, the group acquired the assets, brands and business of 40 Forty Foods Pty Limited, trading under the Super Cubes brand ("Super Cubes") for the total consideration transferred of \$1,051,507. The purchase agreement also include the a deferred consideration of \$143,000 payable over 2 years.

Note 29. Business combinations (continued)

Note 30. Interests in subsidiaries

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiary in accordance with the accounting policy described in note 1:

Name	Principal place of business / Country of incorporation	Ownership interest	
		2020 %	2019 %
Keytone Enterprises (NZ) Company limited	New Zealand	100%	100%
Omniblend Pty Ltd	Australia	100%	-
Omni Brands Pty Ld	Australia	100%	-

Note 31. Events after the reporting period

On 11 May 2020, the company announced the followings:

- Acquisition of the assets of AusConfec Pty Ltd ("AusConfec") for \$2.25 million, consisting of state-of-the-art equipment for the manufacturing of protein bars with contracts with major supermarkets in Australia,
- Share Purchase Plan to offer 8,064,516 shares to existing eligible shareholders at a price of \$0.31 per share to raise up to \$2.5 million (before costs),
- A Placement to offer 40,322,581 shares to eligible shareholders in Australia and New Zealand at \$0.31 per share to raise \$12.5 million (before costs). The proceeds will be used to accelerate the Company's growth initiatives, including sales and marketing of its higher margin proprietary products, capital expenditure towards the AusConfec bar line, working capital and to provide funding to execute a pipeline of strategic acquisition opportunities.

The acquisition of the assets AusConfec Pty Ltd. The acquisition enables the manufacture of protein bars and the ability to bring in-house Keytone's proprietary brand, SuperCubes' Wholefoods to become vertically integrated, providing scale, additional margin and operating efficiencies.

On 19 May 2020, the company issued the followings:

- 5,500,000 performance shares at nil consideration to incentivise the group's employees. The issuance is approved by shareholders pursuant to Resolution 1 of the company's Notice of General Meeting dated 17 April 2020,
- 6,000,000 incentive options with a strike price of \$0.30 and 5,356,336 zero exercise price options to Mr Peter James as approved by shareholders pursuant to Resolution 2 of the company's Notice of General Meeting dated 17 April 2020,
- 569,474 zero exercise price options to Mr Andrew Reeves as approved by shareholders pursuant to Resolution 3 of the company's Notice of General Meeting dated 17 April 2020,
- 107,558 zero exercise price options to Mr Robert Clisdell as approved by shareholders pursuant to Resolution 4 of the company's Notice of General Meeting dated 17 April 2020, and
- 5,356,336 zero exercise price options to the company's Chief Financial Officer Mr Jourdan Thompson as approved by shareholders pursuant to Resolution 5 of the company's Notice of General Meeting dated 17 April 2020.

No other matter or circumstance has arisen since 31 March 2020 that has significantly affected, or may significantly affect the group's operations, the results of those operations, or the group's state of affairs in future financial years.

23/11/2018	25/09/2021	\$0.47	\$0.68	65.00%	-	2.12%	\$0.154
31/07/2019	16/07/2022	\$0.48	\$0.61	89.00%	-	0.81%	\$0.245
31/07/2019	16/07/2023	\$0.48	\$0.61	89.00%	-	0.81%	\$0.282
31/07/2019	16/07/2024	\$0.48	\$0.61	89.00%	-	0.81%	\$0.311
31/07/2019	16/07/2025	\$0.48	\$0.61	89.00%	-	0.81%	\$0.336

Total expense recorded in the profit or loss for the year ended 31 March 2020 amounted to \$1,123,749.

Note 35. Impact of COVID-19

On 11 March 2020, the World Health Organisation (“WHO”) declared the Coronavirus disease 2019 (“COVID-19”) a pandemic. The pandemic has adversely affected the global economy, including an increase in unemployment, decrease in consumer demand, interruptions in supply chains, and tight liquidity and credit conditions. Consequently, governments around the world have announced monetary and fiscal stimulus packages to minimise the adverse economic impact.

Notwithstanding the increasing and varied levels of Government lockdowns being implemented in New Zealand and Australia, Keytone Dairy as a good manufacturer is considered an essential service and will continue to operate through these challenging periods. The Group has a flexible and diversified operational base across six manufacturing sites in New Zealand and Australia, has implemented additional risk mitigation measures and stringent personal and food safety standards.

The COVID-19 situation is still evolving, and its full economic impact remains uncertain. However at this time the directors of the Group believe the risks associated with COVID-19 to the business are largely mitigated due to the close working relationship with key distributors, retail partners and suppliers. At this point in time the Directors do not expect that COVID-19 will have a material, adverse impact on the Group's ongoing business or the carrying value of its operational and intangible assets.

Note 36. Non-current assets - right-of-use assets

	Consolidated	
	2020	2019
	\$	\$
Plant and equipment - right-of-use	1,595,660	-
Less: Accumulated depreciation	(325,662)	-
	<u>1,269,998</u>	<u>-</u>
Buildings - right-of-use	8,308,361	-
Less: Accumulated depreciation	(925,949)	-
	<u>7,382,412</u>	<u>-</u>
	<u><u>8,652,410</u></u>	<u><u>-</u></u>

Note 37. Current liabilities - lease liabilities

	Consolidated	
	2020	2019
	\$	\$
Lease liabilities	<u>924,538</u>	<u>-</u>

Lease liabilities represent leases relating to right-of-use assets as set out in note 36.

The group leases various offices, warehouses and equipment. Rental contracts are typically made for a fixed period of 5 to 10 years, but may have extension options. Lease liabilities are measured at the present value of minimum lease payments for the lease term, discounting using a weighted average incremental borrowing rate of 5%.

To determine the incremental borrowing rate, the group uses recent borrowing rate information from third-party financing received as a starting point, adjusted to reflect changes in financing conditions since third party financing was received. The adjustments made are specific to the lease, i.e. lease term, country, currency and security.

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

The group also exposed to potential future increases in variable lease payments based on an index or rate, which are not included in the lease liability until they take effect. When adjustments to lease payments based on an index or rate take effect, the lease liability is reassessed and adjusted against the right-of-use asset.

Amounts recognised in the statement of profit or loss relating to leases and the correspondent right-of-use assets are shown below:

	Consolidated
	2020
	\$
Depreciation charge on right-of-use assets:	
Land & buildings	499,179
Plants & equipment	115,786
Total depreciation charge on right-of-use assets	<u>614,965</u>
Interest expense (included in finance costs)	275,499
Expense relating to short-term leases (included in occupancy expenses)	<u>161,903</u>

Note 38. Non-current liabilities - lease liabilities

	Consolidated	
	2020	2019
	\$	\$
Lease liability	<u>8,253,333</u>	<u>-</u>

Refer to note 37 for further information on lease liabilities and note 23 for further information on financial instruments.

Lease liabilities are effectively secured as the rights to the leased assets recognised in the financial statements (note 36) revert to the lessor in the event of default.

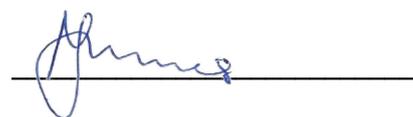

In the directors' opinion:

- the attached consolidated financial statements and notes of Keytone Dairy Corporation Limited ('the company') and its controlled entity (collectively 'the group') comply with the Corporations Act 2001, Australian Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes comply with International Financial Reporting Standards as issued by the International Accounting Standards Board as described in note 2 to the financial statements;
- the attached financial statements and notes give a true and fair view of the group's financial position as at 31 March 2020 and of its performance for the financial year ended on that date; and
- there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

The directors have been given the declarations required by section 295A of the Corporations Act 2001.

Signed in accordance with a resolution of directors made pursuant to section 295(5)(a) of the Corporations Act 2001.

Independent Auditor’s Report to the Members of Keytone Dairy Corporation Limited

REPORT ON THE AUDIT OF THE FINANCIAL REPORT

Opinion

We have audited the financial report of Keytone Dairy Corporation Limited (“the Company”) and its controlled entities (“the Group”), which comprises the consolidated statement of financial position as at 31 March 2020, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors’ declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Group’s financial position as at 31 March 2020 and of its financial performance for the year then ended; and
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor’s Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board’s APES 110 *Code of Ethics for Professional Accountants* (“the Code”) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our audit addressed the key audit matter
Business combinations	
<p>As described in Note 29 “Business combination”, On 31 July 2019, the Group acquired 100% of the ordinary shares of Omniblend Pty Ltd (“Omniblend”) for the total consideration of \$32.5m, including \$8.1m cash consideration, \$10m ordinary shares and \$14.5m performance shares (contingent consideration). The fair value of identifiable net assets at purchase date was \$11.6m. The acquisition resulted in recognition of goodwill of \$24.1m.</p>	<p>Our audit procedures included but were not limited to the following:</p> <ul style="list-style-type: none"> • Assessed the Group’s determination and application of Australian Accounting Standards to the acquisition transactions. • Assessed the reasonableness of the adopted acquisition date and the fair value of purchase consideration by agreeing to the relevant purchase deeds and supporting documents • Performed audit procedures to evaluate the reasonableness of the fair value of the

Key Audit Matter	How our audit addressed the key audit matter
<p>On 17 October 2019, the Group acquired 100% of the assets, brands and business trading as Super Cubes (“Super Cubes”) for a total consideration of \$1.2m. The fair value of identifiable net assets at purchase date was \$0.5m. The acquisition resulted in recognition of goodwill of \$0.7m.</p> <p>The accounting for the business combination has been recorded on a provisional basis in the consolidated financial statements.</p> <p>Management engaged the assistance of independent specialists to perform assist with the purchase price allocation (“PPA”) and determine the fair value of the tangible and intangible assets and liabilities acquired at acquisition date. The acquisition accounting is considered a key audit matter due to the level of judgment included in accounting for business combinations, the valuation of the assets and liabilities acquired, the determination of the fair value of the non-cash purchase consideration as well as the significance of the business combination to the Group’s financial position.</p>	<p>acquisition date assets acquired liabilities assumed.</p> <ul style="list-style-type: none"> • Assessed the calculation of the fair value of the non-cash consideration. • Reviewed management’s expert’s report, including key assumptions used, in determining the fair value of intangible assets, excluding goodwill, acquired. • Assessed the adequacy of the Group’s disclosures in the financial statements.
Carrying amount of intangible assets	
<p>As disclosed in Note 13, the Group’s intangible asset of balance is \$31.9m, include \$0.7m goodwill recognised on acquisition of Super Cubes and \$24.1m goodwill on the acquisition of Omniblend as detailed above.</p> <p>On acquisition goodwill was allocated to identified Cash Generation Units (“CGUs”).</p> <p>As required by Australian Accounting Standards an impairment assessment of the recoverable amount of the CGU’s to which the Goodwill relates has been performed by management.</p> <p>Management’s impairment assessment of the CGU recoverable amounts utilises value in use calculations, which involve a significant level of judgement in the following areas:</p> <ul style="list-style-type: none"> - the selection of the appropriate model to be used, in this case the discounted cash flow model; - assessment and determination of the expected cash flows from the businesses; - selecting appropriate growth rates; and - selection of the appropriate discount rate. 	<p>Our audit procedures included but were not limited to the following:</p> <ul style="list-style-type: none"> • Assessed the identification and determination of the Group’s CGUs based on our understanding of the nature of the Group’s business. • Tested the integrity and mathematical accuracy of the discounted cash flow models used by management for value in use assessments. • Evaluated and assessed key assumptions and methodologies applied to the underlying cashflow forecasts with reference to representations from management, documented business plans and historical results of the business operations. • Assessed the Group’s assumptions in developing the discount and terminal growth rates with reference to external sources. • Performed sensitivity analysis and evaluated whether a reasonably possible change in assumptions could cause the carrying amount of a CGU to exceed its recoverable amount. • Assessed the adequacy of disclosures included in Note 13 to the financial statements.

Key Audit Matter	How our audit addressed the key audit matter
We considered this to be a key audit matter due to the significant judgement involved in estimating the carrying amount of the goodwill as well as the significance of goodwill to the Groups assets.	

Information Other than the Financial Report and Auditor’s Report Thereon

The directors are responsible for the other information. The other information comprises the information included in the Group’s annual report for the year ended 31 March 2020, but does not include the financial report and our auditor’s report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor’s Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON THE REMUNERATION REPORT

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 5 to 11 of the directors' report for the year ended 31 March 2020.

In our opinion, the Remuneration Report of of Keytone Dairy Corporation Limited for the year ended 31 March 2020 complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
