ASX RELEASE

30 May 2022

Change of Share Registry Details

Asra Minerals Limited (ASX: ASR) advises that as of Monday 30 May 2022, the Company has changed its provider for shareholder registry services from Advanced Share Registry to Automic.

Shareholders can easily and efficiently manage their holdings via Automic's secure and highly accessible online Investor portal. Our portal provides among other things an online interface to update and manage shareholder details, view balances and transaction history.

Shareholder registration online

Shareholders that are not already a user of Automic's Investor portal may visit <https://investor.automic.com.au> and sign up to register their details using the two simple steps provided in the setup process.

Should shareholders have any queries in relation to their holding with Asra Minerals Limited, please contact Automic at hello@automic.com.au or on 1300 288 664 (within Australia) or +61 2 9698 5414 (outside Australia).

This announcement has been authorised for release by the Board.

Company Profile

Asra Minerals' flagship Mt Stirling Project in Western Australia's Eastern Goldfields hosts 10 advanced gold prospects as well as a unique and abundant inventory of clean heavy rare earths elements and critical minerals.

Located near the mining towns of Leonora and Kalgoorlie, Mt Stirling has a current JORC compliant total mineral resource estimate of 118,400 gold ounces¹ and neighbours Red 5's King of the Hills mine. The region has recently produced approximately 14Moz of gold from mines such as Tower Hills, Sons of Gwalia, Thunderbox, Harbour Lights and Gwalia. Mt Stirling is nearby to excellent infrastructure including road, rail and mills

A high ratio of heavy rare earths to total rare earths (0.65 to 1) and a lack of radioactivity distinguish the company's Ytria and Wishbone prospects which host all five of the most critical HREEs: dysprosium, terbium, europium, neodymium and yttrium, as well as significant anomalous concentrations of cobalt and scandium.

The Mt Stirling Project consists of two JORC compliant deposits:

1. MS Viserion – 355,000t at 1.7 g/t Au for 20,000oz (Indicated) and 1,695,000 at 1.5 g/t Au for 82,000oz (Inferred)
2. Stirling Well – 253,500t at 2.01 g/t Au for 16,384oz (Inferred)

Competent Person Statement

Information on the Mineral Resources presented, together with JORC Table 1 information, is contained in the ASX releases dated 27 May 2021, 25 February 2019 and 29 January 2020. The Company confirms that it is not aware of any new information or data that materially affects the information in the relevant market announcements, and that the form and context in which the Competent Persons findings are presented have not been materially modified from the original announcements.

Where the Company refers to Mineral Resources in this announcement (referencing previous releases made to the ASX), it confirms that it is not aware of any new information or data that materially affects the information included in that announcement and all material assumptions and technical parameters underpinning the Mineral Resource estimate with that announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Persons findings are presented have not materially changed from the original announcement.
