8.6.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: No. Due to the seasonality of fashion purchasing it is common for the women's clothing retail sector at the end of each of the March and September quarters to deliver net cash outflows and the December and June Quarters to deliver net cash inflows.

8.6.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: The changes in quarterly working capitals follows its historic cycles. Mosaic monitors cashflows during the net cash outflow cycles.

8.6.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes. Though the impacts of COVID are unpredictable the changes in quarterly working capitals follow historic cycles for the entity.

Note: where item 8.5 is less than 2 quarters, all of questions 8.6.1, 8.6.2 and 8.6.3 above must be answered.
